;;;;Thank you, Vince, for arranging such an enjoyable and productive call! Since Tom Ford won't be in Boston, it was a wonderful way for me to keep my finger on the pulse of what's happening in our NEP communities.
I'm a fan of learning from what works so....

At the next NEP team meeting, please let folks know how valuable I found that call to be, in terms of news and relationship building. I'd like to consider a 30 min call like that with one NEP Director every two weeks or so. I'd be happy to move through the Regions. To try it out, please convey my offer to have a pulse check call with an NEP Director in November and one or two in December. Copying Alice so she can help get it on the team agenda.

Hi Nancy,

Tom looked over the updated revision and gave us the green light. You are free to proceed to next steps.

Hi Nancy… How difficult would it be to make Michaels language changes on the test link now?

Yep I had mentioned I only changed the header since Michael would need to provide the rest of the language.

Surabhi: Attached are Michael's suggested edits.

Nancy, the only thing that has been edited for Santa Monica is the subheading of 'Monitoring …..' The paragraphs containing acronyms have been retained. Were your edits late yesterday only changed the subheading and not the descriptive text? I thought it was changed but can't be sure.

Sure - It looks like Vince will share Michael's language and Noemi can do the same.

I did change the Santa Monica and San Juan language yesterday to what you and I discussed Surabahi. I have a lot on my plate Monday so I can't promise I will change the language until Tuesday. I'm trying to finish up NEPORT for reporting next week.

Vince I showed you the new language prior to Michael's edits on my screen yesterday, and you can see them in the edited version he back to us, so not sure what is going on with the link. You can compare it to the original language attached in the slides. It may be helpful to send the Region the slides if you are having issues with the link.

Surabhi can confirm the turnaround time Vince, but I thought she said by next Wednesday.

Nancy,

Will it help to have the close-to-final language to share with the NEPs?
