HI Suzanne,

Thanks for organizing. I put Xs where info is missing for each of the 3 sections. LMK if this works for you.

Hey Luisa and Erica – do you have time this week to look over the spreadsheet, add or change some items and get it back to me?

Remember to look at the 3 categories listed one after the other on the one spreadsheet.

If no this week, let me know when you think you can get to it.

Thanks!

Subject: quick response needed by 10/12
Importance: High

Hi all!

I was asked by my Division Director to identify this for each NEP : 1) common priority challenges facing them, 2) CCMP actions being taken to address them, and 3) indication of whether they are implementing programs within our Division (I recognize there may or may not be an associated CCMP action so don't worry about that). This is part of an exercise to look at our reorganization and program integration.

I put the attached spreadsheet together a few years ago and simply added those programs in our Division where we need to do a crosswalk. I'm hoping you can simply update the information for your NEP.

I just need a quick presence (*checkmark*) or absence response from you for your NEPs in all **THREE CATEGORIES**, **so please make sure to scroll down for all the headers in the spreadsheet.**

- Priority Issues Facing National Estuary Programs
- CCMP Action Plans Being Implemented to Address Priority Issues
- Oceans, Wetlands, and Communities Division Programs Being Implemented

I need to provide this by **October 12th** so if you can **please respond by then I would appreciate it**! **If I don't hear from you, I will assume this is correct and will hand it in as such.**

Thanks for your help! If you're interested in receiving the revised version I'm happy to send it back out to you.

Best

Nancy
