Subject: Haskell Lake Area Petroleum Contamination Model- LDF Site

Good Afternoon Tom,

I uploaded the Cascade MiHPT model 4dim files to the EPA OSC website under the Tower Standard page. In our meeting, you had asked about Cascade's model files. I had thought that we only had the hardcopy logs report. It turns out that access to the 4dim files was available but buried in a link provided on page 7 of the Cascade pdf document. Regardless, I wanted to let you know that the Cascade MiHPT dim files have retained and uploaded to the website.

Thank you for all your help establishing the website data warehouse and communication tool.

Bristol (EPA's contractor) has reported that the LIF data been incorporated into S2C2's model.

I look forward to visiting with you and Bob on Thursday.

Kristen Hanson
