Hi Kristen!

We are working on the agenda but it is meant to be a meeting to get everybody on the same page with respect to setting up regular communication, prior notice before field visits, sharing of plans and data, etc

The participants are the following:

Kristen, Dee, Larry from Lac du Flambeau

Margaret Guerriero, Michael Harris, Gary Victorine, Sherry Kamke and Bob Egan from EPA

Judy Fassbender, John Robinson, and Chris Saari from Wisconsin DNR

Dave Larson from REI

The Kozaks

Hi Bob,

I am in a 2 day mandatory omb grant training. I will be able to review and send comments on Friday. Have you had any luck with boring and well locations ftom previews work? I worked with the coordinates that Chris sent you, but the coordinates provided are not even in the right county. We shared all of our shape files with REI.

I'm not sure what is holding up coordinates. Accurate locations are important to our planned soil work. It would be unfortunate that the rei work is providing no usable value because of location problems.

If location information is worked out, the cross sections will be of value to planned soil boring work.

We did receive Sherry's doodle poll. We will be getting back to you shortly. Larry is in DC this week and Dee and I are tied up in the omb grant training. It would be helpful to send a list of participants and meeting content or proposed agenda.

Kristen

Hi Kristen,

Will you be able to transmit any comments by tomorrow? Or we can talk about them if you prefer, if that would save time.

I just have a few, some of which are related to revising the VI sampling. I want to get them to Bristol this week so they have enough time to make revisions and produce a final before field work begins.

Thank you.
