Kristen,

Hi! Bob is off the clock this afternoon. I suggest that we set up a call for when he returns. I am available this afternoon if you want to have a less technical, check in.

Sherry

Good Afternoon,

Do you have time for a Tribal- EPA call before Bob leaves for vacation. Our last call was the 9th. I thought we had one scheduled on August 23rd, but when I spoke with Bob it wasn't on his schedule. Should we touch base today, our next chance is September 19th.

In the interest of touching bases on all that has been happening, I am certainly willing to sit in a call next week although it isn't the same as having Bob there. I will make time to do this.

Kristen,

I believe that Chris is out today. I am out after noon today until September 19.

If something can be set up for next week, Sherry Kamke may be available to sit in for me, but I do not know her schedule.

Good Afternoon Chris,

I am available for a rescheduled technical call today and all next week. It looks like Bob is out next week though. Do you have time today?

Hi Chris,

We do need to talk if possible. I know that Kristen is in the field today and tomorrow with LIF work. My contractor is waiting for that information to develop some recommendations and we don't have our MiHPT figures back yet.

Can we try to talk to Cascade for their interpretation of the data gathered so far? We will need to think ahead toward remediation and placement of additional wells.

I will be out next week but am here the rest of this week.

Thanks for the reminder.

Bob

Subject: Tower Standard Schedule

Good Afternoon:

I was looking at the proposed schedule that we came up with way back at our Tower Standard meeting in May, and it looks like we're about a month behind where we thought we'd be in terms of evaluating and selecting a remedy. Any suggestions for moving this ahead and getting us back on track?

I know John Robinson sent a message out in late August trying to reschedule our technical group/project management team call that had been originally scheduled for August 25, but it looks like the dates that worked for most respondents have already passed. I think we need to reestablish communications here soon or we could end up losing what's left of this field season.

We are committed to service excellence.

Visit our survey at http://dnr.wi.gov/customersurvey to evaluate how I did.
