Dear Mr. Kozak:

The United States Environmental Protection Agency (EPA) wishes to collect soil samples during the week of September 13, 2015 at the former Tower Standard underground storage tank site located at 14267 State Highway 70 West, Lac du Flambeau, Wisconsin. As you know, REI Engineering, Inc. (REI) will be present at the site conducting drilling and sampling activities on your behalf.

Bob Egan of my staff will be present to split soil samples with REI while they are conducting their activities. No additional work will need to be performed by REI for this effort. Our samples will be collected from the same soils retrieved from the sampling device as used by REI. We will analyze our samples for the same parameters as REI.

Thank you for agreeing to allow EPA to collect samples. Enclosed with this letter is an access agreement for the sampling activities. Please read and sign the form. Mr. Egan can stop by your residence to pick it up or you may fax the form to (312) 408-2215. EPA will notify you and REI in advance of any future sampling activities. I understand that you wish us to coordinate future sampling with Dave Larson at REI. We will do that whenever possible.

If you have any questions about the agreement or the sampling activity, please call Mr. Egan at (312) 886-6212, or me at (312) 353-5794.

Sincerely,

Sherry A. Kamke
