Sounds good.

After 3 today, if Chris becomes available and we can discuss this, please call my cell phone 708 296-0102 so I can participate. I will be available tomorrow also.

Thanks.

Chris will be participating in closure committee discussions today. Depending on the number of

sites they are discussing, it may be an all-day commitment. I copied him on this e-mail and hopefully he can let us know his availability today and/or tomorrow.

Thank you,

David N. Larsen P.G

That's a good question. We should talk this out with Chris is we can.

I saw that you had the cost in your list of services but I didn't know what you plan to have them do. I have learned that our ERT lab in NJ has a system for uploading the data which provides imaging and storage so it can be accessed afterward and we wouldn't be relying on only a paper report, but I am still getting information about that and need to formally access the lab's assistance.

Do you know if Chris is available today?

FYI – REI is working through the contract to bring Cascade in for MIP SOW. How do you suggest we manage the imaging portion? Can I provide them your contact info have them communicate directly with you?

Thank you,
