Subject: RE: Draft decision on LUST cleanup tribal funding

Last year we asked for $510,000 for (Boivin, Prestons Tower, North Mobil, Rosebush, Hub Oil, Drakes, and Chief's Place)

They authorized us for something in the $300K (I can't find that figure)

We committed/obligated "spent" on task orders $321,000 (Tower, Boivin, Prestons and Rosebush)

We requested $830K this year

They are funding us at what we are projecting for Tower Standard $300K

Hi Sherry,

What did we get last year? And what do we want this year? I have a call with Carolyn at 12:30 pm today. Please let me know. Thank you.

Michael Harris

Deputy Director
Land and Chemicals Division
U. S. Environmental Protection Agency, Region 5

Michael,

Did you have the chance to call Carolyn yet?

Sherry

Good Morning Sherry. Hope all is well. I just received a reminder email from Carolyn about your thoughts on the R5 tribal cleanup funding allocation below. Once she hears back from you on these numbers, she can finalize the decision. Any Qs just let me know. - Tom

Sherry –

As you know, we had many more requests for LUST Cleanup funding than we had funding available. We have struggled to make a logical decision on who will receive what portion of what they asked for. We have a straw proposal, and I wanted to run this by you before I make it a final decision. Can you please let me know if you can live with this for your FY16 funding?

Of course, if old, existing work assignments in BERS or other sources of deobligated or recertified funds become available in the future, we will let everyone know that we may be able to fund additional work.

For region 5:

LUST Cleanup funding for:

$20,000 – SEE

$300,000 – for some combination of the work you want to do at Tower Standard, Boivin, Preston's, Chief's Place or Rosebush

Can you live with that?

While I really wanted to fund your efforts for site status memos for the RP lead sites, we had to make some cuts that we really didn't want to make, but just didn't have the funding for. Can we maybe brainstorm other ways we might be able to support that work? We really do want to help you move forward there too.

- Carolyn
