Subject: Response to LDF Comments on Pilot Test and Statement of Work for Plan Tower Standard-Haskell Lake Site TNR 4-2015
EPA Response to Comments - Tower Standard Haskell Lake Pilot Test.pdf
EPA Response to Comments SoW Workplan Tower Standard Haskell Lake .pdf

Dear Kristen:

We appreciate LDF's and Weston's comments on the draft Pilot Test plan. We are providing a response to the comments on that draft Pilot Test plan and the previously shared Task Order Work Plan for Tower Standard.

Given our need to expedite work in the field, we focused most of our attention on your comments that dealt with the pilot test and potential changes that we would want to make to the draft Pilot Test plan. Thus, the response to comments on the task order work plan were delayed a little bit. Nonetheless, I thought that they should be shared with you because they show that your comments are being considered. Please be aware that many of your comments pertain to the Interim Measure/Corrective Measures Study that is still under development by our contractor. These have been noted as such in the response. Many of them will be considered as the Interim Measure/Corrective Measures Study is drafted.

If you have any questions, please do not hesitate to contact me. Thank you.

Sherry Kamke
