Dear Erik,

The Lac du Flambeau Band of Lake Superior Chippewa appreciates the opportunity to consult with EPA Region 5 regarding EPA's response to the February 28, 2017 letter from the Wisconsin Department of Natural Resources (WDNR). The WDNR letter concerns an UST site located within the reservation environment that poses health and safety risks to the reservation population and the resources and quality of Haskell lake. As requested, we have made several revisions to the draft letter for EPA's consideration that we believe further clarify the status of the site and the relationship among the parties. Attached for your information is both a redline version (v-3) and a clean version (v -4) of the revised letter.

Please feel free to contact me if you have any questions.

Have a good weekend.

Richard
