IMMEDIATE RESPONSE REQUESTED

TO: All Counsel and Interested Parties
(Via Email, Facsimile and/or U.S. Mail)

Re: Adair Grain, Inc. d/b/a West Fertilizer

Dear Sir or Madam:

This correspondence will serve to put you on notice that several individuals connected or affiliated with Adair Grain, Inc. d/b/a West Fertilizer need to access personal items that are remaining on the site. The following proposal will be done under the supervision of our independent site control group, Crane Engineering. The individuals allowed on site to collect some of their personal items and belongings will be escorted the entire time and immediately be removed from the site should they not comply with Crane Engineering during their visit. The removal of personal items will be video recorded.

The following items are requested to be completed **on or after Monday, June 24, 2013:**

1. Two of Adair Grains' former truck drivers, Randy Roberts and Elliott Hackman, need to get access to the trucks that they drove on a regular basis to retrieve personal items from inside the trucks they were operating at the time of the explosion. Mr. Hackman needs to retrieve his health care card from the glove box so he can resume employment as a truck driver. It is essential that he get this health card in order to continue driving trucks. Randy Roberts needs to retrieve his tools from behind the seat and a blanket from the sleeper that belonged to his father who recently passed away.

2. Rusty Kwast needs access to the site to remove some personal items, including family photographs and CD/DVDs, and business records from the grain office building remains. These business records include some CD/DVDs and documents that may have been left in the grain office building which are needed for Adair Grain to reconstruct their business records and complete the rundown of its operations.

We ask that anyone who has an objection to this, please let us know **immediately**. Otherwise, if we hear no objection, we will allow those individuals to go on site to retrieve their personal property as noted above on or after June 24, 2013. We appreciate your cooperation and attention to this letter.

Very truly yours,

McCOY LEAVITT LASKEY LLC

John V. McCoy
