This message is encrypted.

I will extend this to the end of January.

The tanks were pumped last week. Scott went there this afternoon and he indicated that the tank had 2 inches of product, it must be below 1 inch to meet our requirements. I contacted Nicole and she indicated her husband will be there tomorrow to drain the tank down to one inch.

Subject: EPA Iztays

Mark,

We will need an extension for the Underground Storage Tank Citation. Nicole Thompson is in the process of getting the tank drained. My assumption is that it should be drained this week. After it is drained I will have Nicole contact Scott Hanson for the final measurement .
