Hello Rafal,

Here is the test report from a sample of diesel cert fuel we obtained from GM's powertrain labs. It agrees well with the test report they supplied from their own testing. I also have a request in to Cummins to get their cert fuel test report, but haven't heard back yet. If I get that, I will let you know.

Jay,
Attached is a copy of FTAG 18593.
Thanks,

Hi Nancy,

I'm trying to track down a fuel test report and I'm hoping you can help. Its number is 18593 and it was from around 4/29/2010. If you have this and can forward me a copy, that would be great.

Thanks,
Jay Smith
