RE: U.S. EPA Section 114(a) Request for Information
Stack Test Extension Request
Mid-America Steel Drum Company, Inc.
8570 South Chicago Road, Oak Creek, Wisconsin

Dear Mr. Prentice:

On behalf of Mid-America Steel Drum Company, Inc. (MASD), Saga Environmental and Engineering, Inc. is providing this stack test extension request. Appendix B of the March 10, 2014-received U.S. EnvironmentalProtectionAgency(EPA) Section 114(a) Request for Information letter to the MASD facility located at 8570 South Chicago Road, Oak Creek, Wisconsin, indicates that a Particulate Matter (PM and PM-10 (filterable and condensable)) and Volatile Organic Compound (VOC) destruction efficiency stack emissions test at the facility's Drum Reclamation Furnace (stack test) must be completed within 65 days, and the stack test protocol must be submitted within 30 days, of said letter receipt. With the letter receipt date of March 10, 2014, the current required stack test completion date is May 14, 2014, and the stack test protocol submittal date is April 9, 2014.

Requests for proposals for the stack test were provided on March 14, 2014 to the following three entities.

Of the comments received following the requests, the above companies indicated that unless there are cancelations within their calendar, they will not be able to schedule the testing prior to May 14, 2014.

Based on this information, we request a 30-day extension to the stack test completion date and testing protocol submittal. If this extension is approved, the stack test protocol will be submitted no later than May 9, 2014, and the stack test will be completed no later than June 13, 2014. All other schedule deadlines within the March 10, 2014-received U.S. EPA Section 114(a) Request for Information letter will be met.

If you have any questions, please contact Scott Swosinski at (414) 762-1114, or me at (920) 945-0601.

Sincerely,
Saga Environmental and Engineering, Inc.
