Waste Pre-Acceptance/Approval Letter

Date **4/9/2009**

Dear **Jennifer Ownes**

Thank you for choosing CES Environmental Services, Inc. for you waste disposal and/or recycling needs. The following waste stream has been approved at our facility in Houston, TX. If the waste received does not conform to the profile, then rejection or additional charges may apply.

CES Profile # HOU-3267

Expiration Date 4/9/2011

Generator: H and H Oil L.P. (Baytown)
Address: 7311 Decker Dr
Baytown, TX 77520

Waste Information

Name of Waste: Water and Sludge / tank bottoms from non haz used oil storage
TCEQ Waste Code #: CESQ6032
Container Type: Vacuum Box
Detailed Description of Process Generating Waste:
Clean out four used oil tanks from used oil collection
Color: **Odor:** **pH:**
Physical State:
Incompatibilities: none known
Safety Related Data/Special Handling:
Standard PPE

If you have any questions concerning this approval and/or the conditions, then please feel free to contact our office at (713) 676-1460.

Thank you,

Matt Bowman, President

SECTION 3: General Description of the Waste

Name of Waste: Water and sludge / tank bottoms from non haz used oil storage tanks
Detailed Description of Process Generating Waste:

Clean out of four used oil tanks from used oil collection

Physical State: ☐ Liquid ☐ Sludge ☐ Powder ☐ Solid ☐ Filter Cake ☑ Combination

Color: Odor:

Specific Gravity (water=1): Density: lbs/gal

Does this material contain any total phenolic compounds? ☐ Yes ☑ No

Does this material contain any para substituted phenolic compounds? ☐ Yes ☑ No

Is the Waste subject to the benzene waste operation NESHAP? (40 CFR Part 61, Subpart FF) ☐ Yes ☑ No
Answer "Yes" if your waste contains benzene AND if the SIC code from your facility is one of the following:

2812	2813	2816	2819	2821	2822	2823	2824	2833	2834
2835	2836	2841	2842	2843	2844	2851	2861	2865	2869
2873	2874	2876	2879	2891	2892	2893	2896	2899	2911
3312	4953	4959	9511						

Layers: ☑ Single-phase ☐ Multi-phase

Container Type: ☐ Drum ☐ Tote ☐ Truck ☑ Other (explain) VACUUM BOXES

Frequency: ☐ Weekly ☐ Monthly ☐ Yearly ☑ One-Time
Quantity: 2

Is this a USEPA "Hazardous Waste" per 40CFR 261.3? ☐ Yes ☒ No

If "Yes", then please complete, sign and date the Underlying Hazardous Constituents Form attached hereto

If "Yes", Is it: ☐ D001 (Ignitable) ☐ D002 (Corrosive) ☐ D003 (Reactive)

Characteristic for Toxic Metals: ☐ D004 ☐ D005 ☐ D006 ☐ D007 ☐ D008 ☐ D009 ☐ D010 ☐ D011

Characteristic for Toxic Organics: D012 thru D043 (please list all that apply)

Is this an "F" or "K" Listed waste or mixed with one? ☐ Yes ☒ No

If "Yes", then please list ALL applicable codes:

Is this a commercial product or spill cleanup that would carry a "U" or "P" waste code under 40 CFR 261.33(e) or (f)? ☐ Yes ☒ No

If "Yes", then please list ALL applicable codes:

Texas State Waste Code Number: CES 9 6032

Proper US DOT Shipping Name: Non RCRA Non DOT Regulated Material

Class: UN/NA: PG: RQ:

Flash Point	pH	Reactive Sulfides	Reactive Cyanides	Solids
		mg/l	mg/l	%
Oil & Grease	**TOC**	**Zinc**	**Copper**	**Nickel**
mg/l	mg/l	mg/l	mg/l	mg/l

SECTION 4: Physical and Chemical Data See attached lab analytical

COMPONENTS TABLE	CONCENTRATOIN	UNITS
The waste consists of the following materials	Ranges are acceptable	or %
Tank Bottoms	90 to 100	
water	0 to 10	

SECTION 5: Safety Related Data

If the handling of this waste requires the use of special protective equipment, please explain.

Standard PPE

SECTION 6: Attached Supporting Documents

List all documents, notes, data and/or analysis attached to this form as part of the waste approval package.

SECTION 7: Incompatibilities

Please list ALL incompatibilities (if any):

None Known

SECTION 8: Generator's Knowledge Documentation

Laboratory analysis of the hazardous waste characteristics, listed below, **WAS NOT PERFORMED** based upon the following generator knowledge:

TCLP Metals: X
TCLP Volatiles: X
TCLP Semi-Volatiles: X
Reactivity: X
Corrosivity:
Ignitability:

SECTION 9: Waste Receipt Classification Under 40 CFR 437 (Prtaining to Pre-Treatment Requirements for Centralized Waste Treatment Facilities)

Is this material a wastewater or wastewater sludge? ☐ YES ☒ NO
If 'Yes', complete this section.

PLEASE CHECK THE APPROPRIATE BOX. IF NO APPROPRIATE CATEGORY, GO TO THE NEXT PAGE.

Metals Subcategory*: *Subpart A

- ☐ Spent electroplating baths and/or sludges
- ☐ Metal finishing rinse water and sludges
- ☐ Chromate wastes
- ☐ Air pollution control blow down water and sludges
- ☐ Spent anodizing solutions
- ☐ Incineration wastewaters
- ☐ Waste liquid mercury
- ☐ Cyanide-containing wastes greater than 136 mg/l
- ☐ Waste acids and bases with or without metals
- ☐ Cleaning, rinsing, and surface preparation solutions from electroplating or phosphating operations
- ☐ Vibratory deburring wastewater
- ☐ Alkaline and acid solutions used to clean metal parts or equipment

Oils Subcategory*: *Subpart B

- ☐ Used oils
- ☐ Oil-water emulsions or mixtures
- ☐ Lubricants
- ☐ Coolants
- ☐ Contaminated groundwater clean-up from petroleum sources
- ☐ Used petroleum products
- ☐ Oil spill clean-up
- ☐ Bilge water
- ☐ Rinse/wash waters from petroleum sources

- ☐ Interceptor wastes
- ☐ Off-specification fuels
- ☐ Underground storage remediation waste
- ☐ Tank clean-out from petroleum or oily sources
- ☐ Non-contact used glycols
- ☐ Aqueous and oil mixtures from parts cleaning operations
- ☐ Wastewater from oil bearing paint washes

Organics Subcategory *: Subpart C*

- ☐ Landfill leachate
- ☐ Contaminated groundwater clean-up from non-petroleum sources
- ☐ Solvent-bearing wastes
- ☐ Off-specification organic product
- ☐ Still bottoms
- ☐ Byproduct waste glycol
- ☐ Wastewater from paint washes
- ☐ Wastewater from adhesives and/or epoxies formulation
- ☐ Wastewater from organic chemical product operations
- ☐ Tank clean-out from organic, non-petroleum sources

(1)

If the waste contains oil and grease at or in excess of 100 mg/L, the waste should be classified in the oils subcategory.

(2)

If the waste contains oil and grease less than 100 mg/L, and has any of the pollutants listed below in concentrations in excess of the values listed below, the waste should be classified in the metals subcategory.

Cadmium: 0.2 mg/L
Chromium: 8.9 mg/L
Copper: 4.9 mg/L
Nickel: 37.5 mg/L

(3)

If the waste contains oil and grease less than 100 mg/L, and does not have concentrations of cadmium, chromium, copper, or nickel above any of the values listed above, the waste should be classified in the organics subcategory.

- ☐ Metals Subcategory
- ☐ Oils Subcategory
- ☐ Organics Subcategory

SECTION 10 Additional Instructions

If you cannot determine the correct subcategory in Section 9 and you did not furnish data for the concentration of Cadmium, Chromium, Copper, Nickel, and Oil and Grease, CES will send offsite to a commercial laboratory a sample to determine these concentrations. This will be prior to acceptance. The generator will be responsible for the cost of the analysis.

SECTION 11: Generator's Certification

The information contained herein is based on ☒ generator knowledge and/or ☒ analytical data.
I hereby certify that the above and attached description is complete and accurate to the best of my knowledge and ability to determine that no deliberate or willful omissions of compostion properties exist and that all known or suspected hazards have been disclosed. I certify that the materials tested are representative of all materials described by this document.

Sent: Monday, April 06, 2009 2:00 PM
To: Joy Baker <jbaker@cesenvironmental.com>
Subject: FW: Profile and Analytical from review and approval

This material is class two but we will need the Chain of custody. Can she call it class one and not use any analytical? Let me know.

Thanks,

Al Longoria

To: Joy Baker; Al Longoria
Subject: FW: Profile and Analytical from review and approval
Importance: High

Good Afternoon,

I originally sent in the attached profile on 03-24-09. I have attached a more legible copy of the analytical and the QA/QC. Al also requested the Chain of Custody, of which I am still working on. Can you review the information attached and advise if you can accept this material without the Chain of Custody? Please let me know if you have any questions.

Thank you,

Jennifer Owens

Waste Pre-Acceptance/Approval Letter

Date **5/15/2009**

Dear **Jennifer Ownes**

Thank you for choosing CES Environmental Services, Inc. for you waste disposal and/or recycling needs. The following waste stream has been approved at our facility in Houston, TX. If the waste received does not conform to the profile, then rejection or additional charges may apply.

CES Profile # HOU-3320

Expiration Date 5/15/2011

Generator: Vertex Residual Management (Westheimer)
Address: Clear Lake City Blvd. @ Eldorado Blvd.
Houston, TX 77063

Waste Information

Name of Waste: Non hazardous Class II waste water
TCEQ Waste Code #: CESQ1192
Container Type:
Detailed Description of Process Generating Waste:
Water from sampling of groundwater monitoring wells
Color: clear to brown **Odor:** non **pH:** 3-10
Physical State:
Incompatibilities: none
Safety Related Data/Special Handling:
std

If you have any questions concerning this approval and/or the conditions, then please feel free to contact our office at (713) 676-1460.

Thank you,

Matt Bowman, President

<1500 mg/l	<10000 mg/l	<2 mg/l	<2 mg/l	<2 mg/l

SECTION 4: Physical and Chemical Data

The material / product consists of the following materials	Ranges are acceptable	or %
Water	99-100	%
· trace-contaminants (See analytical)	<reg limit	..

SECTION 5: Safety Related Data

If the handling of this waste requires the use of special protective equipment, please explain.
Standard PPE

SECTION 6: Attached Supporting Documents

List all documents, notes, data, and/or analysis attached to this form as part of the waste approval package.
analytical

SECTION 7: Incompatibilities

Please list all incompatibilities (if any):
none known

SECTION 8: Generator's Knowledge Documentation

Laboratory analysis of the hazardous waste characteristics, listed below, WAS NOT PERFORMED based upon the following generators knowledge

TCLP Metals : X

TCLP Volatiles : X

TCLP Semi-Volatiles : X

Reactivity : X
Corrosivity : X
Ignitability : X

SECTION 9: Waste Receipt Classification Under 40 CFR 437

Is this material a wastewater or wastewater sludge ? ☑ YES ☐ NO

If 'YES', complete this section

PLEASE CHECK THE APPROPRIATE BOX: IF NO APPROPRIATE CATEGORY, GO TO THE NEXT PAGE

Metals Subcategory: ***Subpart A***

- ☐ Spent electroplating baths and/or sludges
- ☐ Metal finishing rinse water and sludges
- ☐ Chromate wastes
- ☐ Air pollution control blow down water and sludges
- ☐ Spent anodizing solutions
- ☐ Incineration wastewaters
- ☐ Waste liquid mercury
- ☐ Cyanide-containing wastes greater than 136 mg/l
- ☐ Waste acids and bases with or without metals
- ☐ Cleaning, rinsing, and surface preparation solutions from electroplating or phosph
- ☐ Vibratory deburring wastewater
- ☐ Alkaline and acid solutions used to clean metal parts or equipment

Oils Subcategory: ***Subpart B***

- ☐ Used oils
- ☐ Oil-water emulsions or mixtures
- ☐ Lubricants
- ☐ Coolants
- ☐ Contaminated groundwater clean-up from petroleum sources
- ☐ Used petroleum products
- ☐ Oil spill clean-up
- ☐ Bilge water
- ☐ Rinse/wash waters from petroleum sources
- ☐ Interceptor wastes
- ☐ Off-specification fuels
- ☐ Underground storage remediation wastes
- ☐ Tank clean-out from petroleum or oily sources
- ☐ Non-contact used glycols
- ☐ Aqueous and oil mixtures from parts cleaning operations
- ☐ Wastewater from oil bearing paint washes

Organics Subcategory ***Subpart C***

- ☐ Landfill leachate
- ☑ Contaminated groundwater clean-up from non-petroleum sources
- ☐ Solvent-bering wastes
- ☐ Off-specification organic product
- ☐ Still bottoms
- ☐ Byproduct waste glycol
- ☐ Wastewater from paint washes
- ☐ Wastewater from adhesive and/or epoxies formulation

☐ Wastewater from organic chemical product operations

☐ Tank clean-out from organic, non-petroleum sources

(1) If the waste contains oil and grease at or in excess of 100 mg/L, the waste should be classified in the oils subcategory

(2) If the waste contains oil and grease less than 100 mg/L, and has any of the pollutants listed below in concentrations in excess of the values listed below, the waste should be classified in the metals subcategory

Cadmium: 0.2 mg/L
Chromium: 8.9 mg/L
Copper: 4.9 mg/L
Nickel: 37.5 mg/L

(3) If the waste contains oil and grease less than 100 mg/L, and does not have concentrations of cadmium, chromium, copper, or nickel above any of the values listed above, the waste should be classified in the organics subcategory.

☐ Metals Subcatego

☐ Oils Subcatego

☑ Organics Subcategory

SECTION 10: Additional Instruction

If you cannot determine the correct subcategory in Section 9 and you did not furnish data for the concentration of Cadmium, Chromium, Copper, Nickel, and Oil and Grease, CES will send offsite to a commercial laboratory a sample to determine these concentrations. This will be prior to acceptance. The generator will be responsible for the cost of the analysis.

SECTION 11: Generator's Certification

The information contained herein is based on ☑ generator knowledge and/or ☑ analytical data. I hereby certify that the above and attached description is complete and accurate to the best of my knowledge and ability to determine that no deliberate or willful omissions of composition properties exist and that all known or suspected hazards have been disclosed. I certify that the materials tested are representative of all materials described by this document.

Appendix A Laboratory Data Package Cover Page

This data package consists of:

- This signature page, the laboratory review checklist, and the following reportable data:
- R1 Field chain-of-custody documentation;
- R2 Sample identification cross-reference;
- R3 Test reports (analytical data sheets) for each environmental sample that includes:
  - a) Items consistent with NELAC 5.13 or ISO/IEC 17025 Section 5.10
  - b) dilution factors,
  - c) preparation methods,
  - d) cleanup methods, and
  - e) if required for the project, tentatively identified compounds (TICs).
- R4 Surrogate recovery data including:
  - a) Calculated recovery (%R), and
  - b) The laboratory's surrogate QC limits.
- R5 Test reports/summary forms for blank samples;
- R6 Test reports/summary forms for laboratory control samples (LCSs) including:
  - a) LCS spiking amounts,
  - b) Calculated %R for each analyte, and
  - c) The laboratory's LCS QC limits.
- R7 Test reports for project matrix spike/matrix spike duplicates (MS/MSDs) including:
  - a) Samples associated with the MS/MSD clearly identified,
  - b) MS/MSD spiking amounts,
  - c) Concentration of each MS/MSD analyte measured in the parent and spiked samples,
  - d) Calculated %Rs and relative percent differences (RPDs), and
  - e) The laboratory's MS/MSD QC limits
- R8 Laboratory analytical duplicate (if applicable) recovery and precision:
  - a) the amount of analyte measured in the duplicate,
  - b) the calculated RPD, and
  - c) the laboratory's QC limits for analytical duplicates.
- R9 List of method quantitation limits (MQLs) for each analyte for each method and matrix;
- R10 Other problems or anomalies.

The Exception Report for every "No" or "Not Reviewed (NR)" item in laboratory review checklist.

Release Statement: I am responsible for the release of this laboratory data package. This data package has been reviewed by the laboratory and is complete and technically compliant with the requirements of the methods used, except where noted by the laboratory in the attached exception reports. By me signature below, I affirm to the best of my knowledge, all problems/anomalies, observed by the laboratory as having the potential to affect the quality of the data, have been identified by the laboratory in the Laboratory Review Checklist, and no information or data have been knowingly withheld that would affect the quality of the data.

Check, if applicable: [ ] This laboratory is an in-house laboratory controlled by the person responding to rule. The official signing the cover page of the rule-required report (for example, the APAR) in which these data are used is responsible for releasing this data package and is by signature affirming the above release statement is true.

William Mock

Reviewer Name: Susan Murphy, Regulatory Affairs	Prep Batch Number(s): WG294995 CHLORIDE

#[1]	A[2]	Description	Yes	No	NA[3]	NR[4]	ER#[5]
R1	OI	**Chain-of-custody (C-O-C)**					
		Did samples meet the laboratory's standard conditions of sample acceptability upon receipt?	✓				
		Were all departures from standard conditions described in an exception report?			✓		
R2	OI	**Sample and quality control (QC) identification**					
		Are all field sample ID numbers cross-referenced to the laboratory ID numbers?	✓				
		Are all laboratory ID numbers cross-referenced to the corresponding QC data?	✓				
R3	OI	**Test reports**					
		Were all samples prepared and analyzed within holding times?	✓				
		Other than those results < MQL, were all other raw values bracketed by calibration standards?	✓				
		Were calculations checked by a peer or supervisor?	✓				
		Were all analyte identifications checked by a peer or supervisor?	✓				
		Were sample quantitation limits reported for all analytes not detected?	✓				
		Were all results for soil and sediment samples reported on a dry weight basis?	✓				
		Were % moisture (or solids) reported for all soil and sediment samples?	✓				
		If required for the project, TICs reported?			✓		
R4	O	**Surrogate recovery data**					
		Were surrogates added prior to extraction?			✓		
		Were surrogate percent recoveries in all samples within the laboratory QC limits?			✓		
R5	OI	**Test reports/summary forms for blank samples**					
		Were appropriate type(s) of blanks analyzed?	✓				
		Were blanks analyzed at the appropriate frequency?	✓				
		Were method blanks taken through the entire analytical process, including preparation and, if applicable, cleanup procedures?	✓				
		Were blank concentrations < MQL?	✓				
R6	OI	**Laboratory control samples (LCS):**					
		Were all COCs included in the LCS?	✓				
		Was each LCS taken through the entire analytical procedure, including prep and cleanup steps?	✓				
		Were LCSs analyzed at the required frequency?	✓				
		Were LCS (and LCSD, if applicable) %Rs within the laboratory QC limits?	✓				
		Does the detectability data document the laboratory's capability to detect the COCs at the MDL used to calculate the SQLs?	✓				
		Was the LCSD RPD within QC limits?	✓				
R7	OI	**Matrix spike (MS) and matrix spike duplicate (MSD) data**					
		Were the project/method specified analytes included in the MS and MSD?	✓				
		Were MS/MSD analyzed at the appropriate frequency?	✓				
		Were MS (and MSD, if applicable) %Rs within the laboratory QC limits?	✓				
		Were MS/MSD RPDs within laboratory QC limits?	✓				
R8	OI	**Analytical duplicate data**					
		Were appropriate analytical duplicates analyzed for each matrix?	✓				
		Were analytical duplicates analyzed at the appropriate frequency?	✓				
		Were RPDs or relative standard deviations within the laboratory QC limits?	✓				
R9	OI	**Method quantitation limits (MQLs):**					
		Are the MQLs for each method analyte included in the laboratory data package?	✓				
		Do the MQLs correspond to the concentration of the lowest non-zero calibration standard?	✓				
		Are unadjusted MQLs included in the laboratory data package?	✓				
R10	OI	**Other problems/anomalies**					
		Are all known problems/anomalies/special conditions noted in this LRC and ER?	✓				
		Were all necessary corrective actions performed for the reported data?	✓				
		Was applicable and available technology used to lower the SQL minimize the matrix interference affects on the sample results?	✓				

1. Items identified by the letter "R" must be included in the laboratory data package submitted in the TRRP-required report(s). Items identified by the letter "S" should be retained and made available upon request for the appropriate retention period.
2. = organic analyses; I = inorganic analyses (and general chemistry, when applicable);
3. NA = Not applicable;
4. NR = Not reviewed;
5. ER# = Exception Report identification number (an Exception Report should be completed for an item if "NR" or "No" is checked).

EPAHO009002317

Attachment B
Explanation of QC Qualifier Codes

Qualifier	Meaning
J	(EPA) - Estimated value below the lowest calibration point. Confidence correlates with concentration.
J3	The associated batch QC was outside the established quality control range for precision.
J4	The associated batch QC was outside the established quality control range for accuracy.

Qualifier Report Information

ESC utilizes sample and result qualifiers as set forth by the EPA Contract Laboratory Program and as required by most certifying bodies including NELAC. In addition to the EPA qualifiers adopted by ESC, we have implemented ESC qualifiers to provide more information pertaining to our analytical results. Each qualifier is designated in the qualifier explanation as either EPA or ESC. Data qualifiers are intended to provide the ESC client with more detailed information concerning the potential bias of reported data. Because of the wide range of constituents and variety of matrices incorporated by most EPA methods,it is common for some compounds to fall outside of established ranges. These exceptions are evaluated and all reported data is valid and useable unless qualified as 'R' (Rejected).

Definitions

Accuracy - The relationship of the observed value of a known sample to the true value of a known sample. Represented by percent recovery and relevant to samples such as: control samples, matrix spike recoveries, surrogate recoveries, etc.

Precision - The agreement between a set of samples or between duplicate samples. Relates to how close together the results are and is represented by Relative Percent Differrence.

Surrogate - Organic compounds that are similar in chemical composition, extraction, and chromotography to analytes of interest. The surrogates are used to determine the probable response of the group of analytes that are chemically related to the surrogate compound. Surrogates are added to the sample and carried through all stages of preparation and analyses.

	Control Limits				(AQ)	(SS)
2-Fluorophenol	31-119	Nitrobenzene-d5	43-118	Dibromfluoromethane	68-128	64-125
Phenol-d5	12-134	2-Fluorobiphenyl	45-128	Toluene-d8	76-115	69-118
2,4,6-Tribromophenol	51-141	Terphenyl-d14	43-137	4-Bromofluorobenzene	79-127	61-134

TIC - Tentatively Identified Compound: Compounds detected in samples that are not target compounds, internal standards, system monitoring compounds, or surrogates.

Waste Pre-Acceptance/Approval Letter

Date **4/13/2009**

Dear **Jennifer Ownes**

Thank you for choosing CES Environmental Services, Inc. for you waste disposal and/or recycling needs. The following waste stream has been approved at our facility in Houston, TX. If the waste received does not conform to the profile, then rejection or additional charges may apply.

CES Profile # HOU-3269

Expiration Date 4/13/2011

Generator: Vertex Residual Management (Westheimer)
Address: 9633 Westheimer
Houston, TX 77063

Waste Information

Name of Waste: Non Haz Soil
TCEQ Waste Code #: CESQ3192
Container Type:
Detailed Description of Process Generating Waste:
Soil cuttings phase II subsurface investigation / well installation
Color: na **Odor:** na **pH:**
Physical State:
Incompatibilities: none known
Safety Related Data/Special Handling:
Standard PPE

If you have any questions concerning this approval and/or the conditions, then please feel free to contact our office at (713) 676-1460.

Thank you,

Matt Bowman, President
CES Environmental Services, Inc.

Phone Number: 281.486.4182 **Fax Number:** 281.486.0217

SECTION 3: General Description of the Waste

Name of Waste: Non haz Soil
Detailed Description of Process Generating Waste:

Soil Cuttings phase II subsurface investigation / well installlation

Physical State: ☐ **Liquid** ☐ **Sludge** ☐ **Powder**
☑ **Solid** ☐ **Filter Cake** ☐ **Combination**

Color: **Odor:**

Specific Gravity (water=1): **Density:** lbs/gal

Does this material contain any total phenolic compounds? ☐ Yes ☑ No

Does this material contain any para substituted phenolic compounds? ☐ Yes ☑ No

Is the Waste subject to the benzene waste operation NESHAP? (40 CFR Part 61, Subpart FF) ☐ Yes ☑ No
Answer "Yes" if your waste contains benzene **AND** if the SIC code from your facility is one of the following:

2812	2813	2816	2819	2821	2822	2823	2824	2833	2834
2835	2836	2841	2842	2843	2844	2851	2861	2865	2869
2873	2874	2876	2879	2891	2892	2893	2896	2899	2911
3312	4953	4959	9511						

Layers: ☑ **Single-phase** ☐ **Multi-phase**

Container Type: ☑ **Drum** ☐ **Tote** ☐ **Truck** ☐ **Other (explain)**

Frequency: ☐ **Weekly** ☐ **Monthly** ☐ **Yearly** ☑ **One-Time**
Quantity: 24

Is this a USEPA "Hazardous Waste" per 40CFR 261.3? ☐ Yes ☑ No

If "Yes", then please complete, sign and date the Underlying Hazardous Constituents Form attached hereto

If "Yes", Is it: ☐ D001 (Ignitable) ☐ D002 (Corrosive) ☐ D003 (Reactive)

Characteristic for Toxic Metals: ☐ D004 ☐ D005 ☐ D006 ☐ D007 ☐ D008 ☐ D009 ☐ D010 ☐ D011

Characteristic for Toxic Organics: D012 thru D043 (please list all that apply)

Is this an "F" or "K" Listed waste or mixed with one? ☐ Yes ☐ No

If "Yes", then please list ALL applicable codes:

Is this a commercial product or spill cleanup that would carry a "U" or "P" waste code under 40 CFR 261.33(e) or (f)? ☐ Yes ☑ No

If "Yes", then please list ALL applicable codes:

Texas State Waste Code Number: CESQ 3192

Proper US DOT Shipping Name: Non RCRA Non DOT Regulated material

Class: UN/NA: PG: RQ:

Flash Point	pH	Reactive Sulfides	Reactive Cyanides	Solids
		mg/l	mg/l	%
Oil & Grease	**TOC**	**Zinc**	**Copper**	**Nickel**
mg/l	mg/l	mg/l	mg/l	mg/l

SECTION 4: Physical and Chemical Data (See attached analytical)

COMPONENTS TABLE	CONCENTRATOIN	UNITS
The waste consists of the following materials	Ranges are acceptable	or %
Soil	100%	%

SECTION 5: Safety Related Data

If the handling of this waste requires the use of special protective equipment, please explain.

Standard PPE

SECTION 6: Attached Supporting Documents

List all documents, notes, data and/or analysis attached to this form as part of the waste approval package. Analytical

SECTION 7: Incompatibilities

Please list ALL incompatibilities (if any):

None Known

SECTION 8: Generator's Knowledge Documentation

Laboratory analysis of the hazardous waste characteristics, listed below, **WAS NOT PERFORMED** based upon the following generator knowledge:

TCLP Metals: third party analytical was complete (See attached)
TCLP Volatiles:
TCLP Semi-Volatiles:
Reactivity:
Corrosivity:
Ignitability:

SECTION 9: Waste Receipt Classification Under 40 CFR 437 (Prtaining to Pre-Treatment Requirements for Centralized Waste Treatment Facilities)

Is this material a wastewater or wastewater sludge? ☐ YES ☐ NO
If 'Yes', complete this section.

PLEASE CHECK THE APPROPRIATE BOX. IF NO APPROPRIATE CATEGORY, GO TO THE NEXT PAGE.

Metals Subcategory*: *Subpart A

- ☐ Spent electroplating baths and/or sludges
- ☐ Metal finishing rinse water and sludges
- ☐ Chromate wastes
- ☐ Air pollution control blow down water and sludges
- ☐ Spent anodizing solutions
- ☐ Incineration wastewaters
- ☐ Waste liquid mercury
- ☐ Cyanide-containing wastes greater than 136 mg/l
- ☐ Waste acids and bases with or without metals
- ☐ Cleaning, rinsing, and surface preparation solutions from electroplating or phosphating operations
- ☐ Vibratory deburring wastewater
- ☐ Alkaline and acid solutions used to clean metal parts or equipment

Oils Subcategory*: *Subpart B

- ☐ Used oils
- ☐ Oil-water emulsions or mixtures
- ☐ Lubricants
- ☐ Coolants
- ☐ Contaminated groundwater clean-up from petroleum sources
- ☐ Used petroleum products
- ☐ Oil spill clean-up
- ☐ Bilge water
- ☐ Rinse/wash waters from petroleum sources

- ☐ Interceptor wastes
- ☐ Off-specification fuels
- ☐ Underground storage remediation waste
- ☐ Tank clean-out from petroleum or oily sources
- ☐ Non-contact used glycols
- ☐ Aqueous and oil mixtures from parts cleaning operations
- ☐ Wastewater from oil bearing paint washes

***Organics Subcategory*: Subpart C**

- ☐ Landfill leachate
- ☐ Contaminated groundwater clean-up from non-petroleum sources
- ☐ Solvent-bearing wastes
- ☐ Off-specification organic product
- ☐ Still bottoms
- ☐ Byproduct waste glycol
- ☐ Wastewater from paint washes
- ☐ Wastewater from adhesives and/or epoxies formulation
- ☐ Wastewater from organic chemical product operations
- ☐ Tank clean-out from organic, non-petroleum sources

(1)

If the waste contains oil and grease at or in excess of 100 mg/L, the waste should be classified in the oils subcategory.

(2)

If the waste contains oil and grease less than 100 mg/L, and has any of the pollutants listed below in concentrations in excess of the values listed below, the waste should be classified in the metals subcategory.

Cadmium: 0.2 mg/L
Chromium: 8.9 mg/L
Copper: 4.9 mg/L
Nickel: 37.5 mg/L

(3)

If the waste contains oil and grease less than 100 mg/L, and does not have concentrations of cadmium, chromium, copper, or nickel above any of the values listed above, the waste should be classified in the organics subcategory.

- ☐ Metals Subcategory
- ☐ Oils Subcategory
- ☐ Organics Subcategory

SECTION 10 Additional Instructions

If you cannot determine the correct subcategory in Section 9 and you did not furnish data for the concentration of Cadmium, Chromium, Copper, Nickel, and Oil and Grease, CES will send offsite to a commercial laboratory a sample to determine these concentrations. This will be prior to acceptance. The generator will be responsible for the cost of the analysis.

SECTION 11: Generator's Certification

The information contained herein is based on ☐ generator knowledge and/or ☑ analytical data.
I hereby certify that the above and attached description is complete and accurate to the best of my knowledge and ability to determine that no deliberate or willful omissions of compostion properties exist and that all known or suspected hazards have been disclosed. I certify that the materials tested are representative of all materials described by this document.

Appendix A Laboratory Data Package Cover Page

This data package consists of:

This signature page, the laboratory review checklist, and the following reportable data:

R1 Field chain-of-custody documentation;

R2 Sample identification cross-reference;

R3 Test reports (analytical data sheets) for each environmental sample that includes:

a) Items consistent with NELAC 5.13 or ISO/IEC 17025 Section 5.10
b) dilution factors,
c) preparation methods,
d) cleanup methods, and
e) if required for the project, tentatively identified compounds (TICs).

R4 Surrogate recovery data including:

a) Calculated recovery (%R), and
b) The laboratory's surrogate QC limits.

R5 Test reports/summary forms for blank samples;

R6 Test reports/summary forms for laboratory control samples (LCSs) including:

a) LCS spiking amounts,
b) Calculated %R for each analyte, and
c) The laboratory's LCS QC limits.

R7 Test reports for project matrix spike/matrix spike duplicates (MS/MSDs) including:

a) Samples associated with the MS/MSD clearly identified,
b) MS/MSD spiking amounts,
c) Concentration of each MS/MSD analyte measured in the parent and spiked samples,
d) Calculated %Rs and relative percent differences (RPDs), and
e) The laboratory's MS/MSD QC limits

R8 Laboratory analytical duplicate (if applicable) recovery and precision:

a) the amount of analyte measured in the duplicate,
b) the calculated RPD, and
c) the laboratory's QC limits for analytical duplicates.

R9 List of method quantitation limits (MQLs) for each analyte for each method and matrix;

R10 Other problems or anomalies.

The Exception Report for every "No" or "Not Reviewed (NR)" item in laboratory review checklist.

Release Statement: I am responsible for the release of this laboratory data package. This data package has been reviewed by the laboratory and is complete and technically compliant with the requirements of the methods used, except where noted by the laboratory in the attached exception reports. By my signature below, I affirm to the best of my knowledge, all problems/anomalies, observed by the laboratory as having the potential to affect the quality of the data, have been identified by the laboratory in the Laboratory Review Checklist, and no information or data have been knowingly withheld that would affect the quality of the data.

Check, if applicable: [ ] This laboratory is an in-house laboratory controlled by the person responding to rule. The official signing the cover page of the rule-required report (for example, the APAR) in which these data are used is responsible for releasing this data package and is by signature affirming the above release statement is true.

		Were the project/method specified analytes included in the MS and MSD?	✓				
		Were MS/MSD analyzed at the appropriate frequency?	✓				
		Were MS (and MSD, if applicable) %Rs within the laboratory QC limits?		✓			1
		Were MS/MSD RPDs within laboratory QC limits?	✓				
R8	OI	**Analytical duplicate data**					
		Were appropriate analytical duplicates analyzed for each matrix?	✓				
		Were analytical duplicates analyzed at the appropriate frequency?	✓				
		Were RPDs or relative standard deviations within the laboratory QC limits?	✓				
R9	OI	**Method quantitation limits (MQLs):**					
		Are the MQLs for each method analyte included in the laboratory data package?	✓				
		Do the MQLs correspond to the concentration of the lowest non-zero calibration standard?	✓				
		Are unadjusted MQLs included in the laboratory data package?	✓				
R10	OI	**Other problems/anomalies**					
		Are all known problems/anomalies/special conditions noted in this LRC and ER?	✓				
		Were all necessary corrective actions performed for the reported data?	✓				
		Was applicable and available technology used to lower the SQL minimize the matrix interference affects on the sample results?	✓				

1. Items identified by the letter "R" must be included in the laboratory data package submitted in the TRRP-required report(s). Items identified by the letter "S" should be retained and made available upon request for the appropriate retention period.
2. = organic analyses; I = inorganic analyses (and general chemistry, when applicable);
3. NA = Not applicable;
4. NR = Not reviewed;
5. ER# = Exception Report identification number (an Exception Report should be completed for an item if "NR" or "No" is checked).

Appendix A (cont'd): Laboratory Review Checklist: Exception Reports

Laboratory Name: Environmental Science Corp.	LRC Date: 4/2/2009
Project Name: Woodlake Square VCP 2009	Laboratory Job Number: L394657
Reviewer Name: ESC Representative	Prep Batch Numbers: WG414179 AGICP

Sample(s) COMP 1 were analyzed for Trace Metals by Method 6010B

ER#:	Description
1	The matrix spike or matrix spike duplicate recoveries were below the laboratory control limits for Silver.

Appendix A (cont'd): Laboratory Review Checklist: Reportable Data

Laboratory Name: Environmental Science	LRC Date: 04/02/09
Project Name: Woodlake Square VCP 2009	Laboratory Job Number: L394657-02
Reviewer Name: ESC Representative	Prep Batch Number(s): WG414184 CORR

#[1]	A[2]	Description	Yes	No	NA[3]	NR[4]	ER#[5]
		Chain-of-custody (C-O-C)					
R1	OI	Did samples meet the laboratory's standard conditions of sample acceptability upon receipt?	✓				
		Were all departures from standard conditions described in an exception report?			✓		
R2	OI	**Sample and quality control (QC) identification**					
		Are all field sample ID numbers cross-referenced to the laboratory ID numbers?	✓				
		Are all laboratory ID numbers cross-referenced to the corresponding QC data?	✓				
R3	OI	**Test reports**					
		Were all samples prepared and analyzed within holding times?	✓				
		Other than those results < MQL, were all other raw values bracketed by calibration standards?	✓				
		Were calculations checked by a peer or supervisor?	✓				
		Were all analyte identifications checked by a peer or supervisor?	✓				
		Were sample quantitation limits reported for all analytes not detected?	✓				
		Were all results for soil and sediment samples reported on a dry weight basis?	✓				
		Were % moisture (or solids) reported for all soil and sediment samples?	✓				
		If required for the project, TICs reported?			✓		
R4	O	**Surrogate recovery data**					
		Were surrogates added prior to extraction?			✓		
		Were surrogate percent recoveries in all samples within the laboratory QC limits?			✓		
R5	OI	**Test reports/summary forms for blank samples**					
		Were appropriate type(s) of blanks analyzed?	✓				
		Were blanks analyzed at the appropriate frequency?	✓				
		Were method blanks taken through the entire analytical process, including preparation and, if applicable, cleanup procedures?	✓				
		Were blank concentrations < MQL?	✓				
R6	OI	**Laboratory control samples (LCS):**					
		Were all COCs included in the LCS?	✓				
		Was each LCS taken through the entire analytical procedure, including prep and cleanup steps?	✓				
		Were LCSs analyzed at the required frequency?	✓				
		Were LCS (and LCSD, if applicable) %Rs within the laboratory QC limits?	✓				
		Does the detectability data document the laboratory's capability to detect the COCs at the MDL used to calculate the SQLs?	✓				
		Was the LCSD RPD within QC limits?	✓				
R7	OI	**Matrix spike (MS) and matrix spike duplicate (MSD) data**					
		Were the project/method specified analytes included in the MS and MSD?			✓

Attachment A
List of Analytes with QC Qualifiers

Sample Number	Work Group	Sample Type	Analyte	Run ID	Qualifier
L394657-01	WG414176	SAMP	Hexachlorobenzene	R687866	J5
	WG414176	SAMP	3&4-Methyl Phenol	R687866	J5

Attachment B
Explanation of QC Qualifier Codes

Qualifier	Meaning
J5	The sample matrix interfered with the ability to make any accurate determination; spike value is high

Qualifier Report Information

ESC utilizes sample and result qualifiers as set forth by the EPA Contract Laboratory Program and as required by most certifying bodies including NELAC. In addition to the EPA qualifiers adopted by ESC, we have implemented ESC qualifiers to provide more information pertaining to our analytical results. Each qualifier is designated in the qualifier explanation as either EPA or ESC. Data qualifiers are intended to provide the ESC client with more detailed information concerning the potential bias of reported data. Because of the wide range of constituents and variety of matrices incorporated by most EPA methods,it is common for some compounds to fall outside of established ranges. These exceptions are evaluated and all reported data is valid and useable unless qualified as 'R' (Rejected).

Definitions

Accuracy - The relationship of the observed value of a known sample to the true value of a known sample. Represented by percent recovery and relevant to samples such as: control samples, matrix spike recoveries, surrogate recoveries, etc.

Precision - The agreement between a set of samples or between duplicate samples. Relates to how close together the results are and is represented by Relative Percent Differrence.

Surrogate - Organic compounds that are similar in chemical composition, extraction, and chromotography to analytes of interest. The surrogates are used to determine the probable response of the group of analytes that are chemically related to the surrogate compound. Surrogates are added to the sample and carried through all stages of preparation and analyses.

TIC - Tentatively Identified Compound: Compounds detected in samples that are not target compounds, internal standards, system monitoring compounds, or surrogates.

Attachment A
List of Analytes with QC Qualifiers

Sample #	Analyte	Qualifier
L367699-01	Acrolein	J4
	Tetrachloroethene	E
L367699-02	Acrolein	J4
	Di-isopropyl ether	J
	2-Butanone (MEK)	J
L367699-03	Di-isopropyl ether	J
L367699-04	Acrolein	J4

Attachment B
Explanation of QC Qualifier Codes

Qualifier	Meaning
E	GTL (EPA) - Greater than upper calibration limit: Actual value is known to be greater than the upper calibration range.
J	(EPA) - Estimated value below the lowest calibration point. Confidence correlates with concentration.
J4	The associated batch QC was outside the established quality control range for accuracy.

Qualifier Report Information

ESC utilizes sample and result qualifiers as set forth by the EPA Contract Laboratory Program and as required by most certifying bodies including NELAC. In addition to the EPA qualifiers adopted by ESC, we have implemented ESC qualifiers to provide more information pertaining to our analytical results. Each qualifier is designated in the qualifier explanation as either EPA or ESC. Data qualifiers are intended to provide the ESC client with more detailed information concerning the potential bias of reported data. Because of the wide range of constituents and variety of matrices incorporated by most EPA methods, it is common for some compounds to fall outside of established ranges. These exceptions are evaluated and all reported data is valid and useable unless qualified as 'R' (Rejected).

Definitions

Accuracy - The relationship of the observed value of a known sample to the true value of a known sample. Represented by percent recovery and relevant to samples such as: control samples, matrix spike recoveries, surrogate recoveries, etc.

Precision - The agreement between a set of samples or between duplicate samples. Relates to how close together the results are and is represented by Relative Percent Difference.

Surrogate - Organic compounds that are similar in chemical composition, extraction, and chromotography to analytes of interest. The surrogates are used to determine the probable response of the group of analytes that are chemically related to the surrogate compound. Surrogates are added to the sample and carried through all stages of preparation and analyses.

TIC - Tentatively Identified Compound: Compounds detected in samples that are not target compounds, internal standards, system monitoring compounds, or surrogates.

Waste Pre-Acceptance/Approval Letter

Date **4/9/2009**

Dear **Jennifer Ownes**

Thank you for choosing CES Environmental Services, Inc. for you waste disposal and/or recycling needs. The following waste stream has been approved at our facility in Houston, TX. If the waste received does not conform to the profile, then rejection or additional charges may apply.

CES Profile # HOU-3268

Expiration Date 4/9/2011

Generator: Vertex Residual Management (Westheimer)
Address: 9633 Westheimer
Houston, TX 77063

Waste Information

Name of Waste: Non Haz water
TCEQ Waste Code #: CESQ1191
Container Type:
Detailed Description of Process Generating Waste:
Water from sampling of groundwater monitoring wells
Color: clear tp brown **Odor:** none **pH:** 3-10
Physical State:
Incompatibilities: none known
Safety Related Data/Special Handling:
Standard PPE

If you have any questions concerning this approval and/or the conditions, then please feel free to contact our office at (713) 676-1460.

Thank you,

Matt Bowman, President
CES Environmental Services, Inc.

SECTION 2: Billing Information - ☐ **Same as Above**

Company: Vertex Residual Management
Address: 1331 Gemini St Suite 103
City: Housotn **State:** TX **Zip:** 77058
Contact: Jennifer Owens **Title:** RDC
Phone Number: 281.486.4182 **Fax Number:** 281.486.0217

SECTION 3: General Description of the Waste

Name of Waste: Non haz Water
Detailed Description of Process Generating Waste:

Water from sampling of groundwater monitoring wells

Physical State: ☑ **Liquid** ☐ **Sludge** ☐ **Powder** ☐ **Solid** ☐ **Filter Cake** ☐ **Combination**

Color: clear to brown **Odor:** none

Specific Gravity (water=1): 1 **Density:** 8.34 lbs/gal

Does this material contain any total phenolic compounds? ☐ Yes ☑ No

Does this material contain any para substituted phenolic compounds? ☐ Yes ☑ No

Is the Waste subject to the benzene waste operation NESHAP? (40 CFR Part 61, Subpart FF) ☐ Yes ☑ No
Answer "Yes" if your waste contains benzene **AND** if the SIC code from your facility is one of the following:

2812	2813	2816	2819	2821	2822	2823	2824	2833	2834
2835	2836	2841	2842	2843	2844	2851	2861	2865	2869
2873	2874	2876	2879	2891	2892	2893	2896	2899	2911
3312	4953	4959	9511						

Layers: ☑ **Single-phase** ☐ **Multi-phase**

Container Type: ☑ **Drum** ☐ **Tote** ☐ **Truck** ☐ **Other (explain)**

Frequency: ☐ **Weekly** ☐ **Monthly** ☐ **Yearly** ☑ **One-Time**
Quantity: 1

Is this a USEPA "Hazardous Waste" per 40CFR 261.3? ☐ Yes ☑ No

If "Yes", then please complete, sign and date the Underlying Hazardous Constituents Form attached hereto

If "Yes", Is it: ☐ D001 (Ignitable) ☐ D002 (Corrosive) ☐ D003 (Reactive)

Characteristic for Toxic Metals: ☐ D004 ☐ D005 ☐ D006 ☐ D007 ☐ D008 ☐ D009 ☐ D010 ☐ D011

Characteristic for Toxic Organics: D012 thru D043 (please list all that apply)

Is this an "F" or "K" Listed waste or mixed with one? ☐ Yes ☑ No

If "Yes", then please list ALL applicable codes:

Is this a commercial product or spill cleanup that would carry a "U" or "P" waste code under 40 CFR 261.33(e) or (f)? ☐ Yes ☑ No

If "Yes", then please list ALL applicable codes:

Texas State Waste Code Number: C659 1191

Proper US DOT Shipping Name: Non RCRA/Non DOT Regulated Water

Class: NA UN/NA: NA PG : NA RQ: NA

Flash Point	pH	Reactive Sulfides	Reactive Cyanides	Solids
>140 deg F	3-10	NA mg/l	NA mg/l	<2 %

Oil & Grease	TOC	Zinc	Copper	Nickel
NA mg/l	<10,000 mg/l	<2 mg/l	<2 mg/l	<2 mg/l

SECTION 4: Physical and Chemical Data

COMPONENTS TABLE	CONCENTRATOIN	UNITS
The waste consists of the following materials	Ranges are acceptable	or %
Water	99-100	%
tetrachloroethene	<0.7	ppm
Benzene	<0.5	ppm
Trichloroethene	<0.5	ppm
Vinyl Chloride	<0.2	ppm
2-Butanone (MEK)	<200	ppm

SECTION 5: Safety Related Data

If the handling of this waste requires the use of special protective equipment, please explain.

standard PPE

SECTION 6: Attached Supporting Documents

List all documents, notes, data and/or analysis attached to this form as part of the waste approval package. Analytical

SECTION 7: Incompatibilities

Please list ALL incompatibilities (if any):

SECTION 8: Generator's Knowledge Documentation

Laboratory analysis of the hazardous waste characteristics, listed below, **WAS NOT PERFORMED** based upon the following generator knowledge:

TCLP Metals:	there is no process that involved RCRA metals that could have entered the water
TCLP Volatiles:	third party analytical was completed (see attached)
TCLP Semi-Volatiles:	third party analytical was completed (see attached)
Reactivity:	there is no process that could have caused the groundwater to be reactive
Corrosivity:	there is no process that could have caused the groundwater to be corrosive
Ignitability:	there is no process that could have caused the groundwater to be ignitable

SECTION 9: Waste Receipt Classification Under 40 CFR 437 (Prtaining to Pre-Treatment Requirements for Centralized Waste Treatment Facilities)

Is this material a wastewater or wastewater sludge? ☑ YES ☐ NO

If 'Yes', complete this section.

PLEASE CHECK THE APPROPRIATE BOX. IF NO APPROPRIATE CATEGORY, GO TO THE NEXT PAGE.

Metals Subcategory*: *Subpart A

- ☐ Spent electroplating baths and/or sludges
- ☐ Metal finishing rinse water and sludges
- ☐ Chromate wastes
- ☐ Air pollution control blow down water and sludges
- ☐ Spent anodizing solutions
- ☐ Incineration wastewaters
- ☐ Waste liquid mercury
- ☐ Cyanide-containing wastes greater than 136 mg/l
- ☐ Waste acids and bases with or without metals
- ☐ Cleaning, rinsing, and surface preparation solutions from electroplating or phosphating operations
- ☐ Vibratory deburring wastewater
- ☐ Alkaline and acid solutions used to clean metal parts or equipment

Oils Subcategory*: *Subpart B

- ☐ Used oils
- ☐ Oil-water emulsions or mixtures
- ☐ Lubricants
- ☐ Coolants
- ☐ Contaminated groundwater clean-up from petroleum sources
- ☐ Used petroleum products
- ☐ Oil spill clean-up
- ☐ Bilge water
- ☐ Rinse/wash waters from petroleum sources

- [ ] Interceptor wastes
- [ ] Off-specification fuels
- [ ] Underground storage remediation waste
- [ ] Tank clean-out from petroleum or oily sources
- [ ] Non-contact used glycols
- [ ] Aqueous and oil mixtures from parts cleaning operations
- [ ] Wastewater from oil bearing paint washes

Organics Subcategory *: Subpart C*

- [ ] Landfill leachate
- [x] Contaminated groundwater clean-up from non-petroleum sources
- [ ] Solvent-bearing wastes
- [ ] Off-specification organic product
- [ ] Still bottoms
- [ ] Byproduct waste glycol
- [ ] Wastewater from paint washes
- [ ] Wastewater from adhesives and/or epoxies formulation
- [ ] Wastewater from organic chemical product operations
- [ ] Tank clean-out from organic, non-petroleum sources

(1)

If the waste contains oil and grease at or in excess of 100 mg/L, the waste should be classified in the oils subcategory.

(2)

If the waste contains oil and grease less than 100 mg/L, and has any of the pollutants listed below in concentrations in excess of the values listed below, the waste should be classified in the metals subcategory.

Cadmium: 0.2 mg/L
Chromium: 8.9 mg/L
Copper: 4.9 mg/L
Nickel: 37.5 mg/L

(3)

If the waste contains oil and grease less than 100 mg/L, and does not have concentrations of cadmium, chromium, copper, or nickel above any of the values listed above, the waste should be classified in the organics subcategory.

- [ ] Metals Subcategory
- [ ] Oils Subcategory
- [x] Organics Subcategory

SECTION 10 Additional Instructions

If you cannot determine the correct subcategory in Section 9 and you did not furnish data for the concentration of Cadmium, Chromium, Copper, Nickel, and Oil and Grease, CES will send offsite to a commercial laboratory a sample to determine these concentrations. This will be prior to acceptance. The generator will be responsible for the cost of the analysis.

SECTION 11: Generator's Certification

The information contained herein is based on [x] generator knowledge and/or [x] analytical data.
I hereby certify that the above and attached description is complete and accurate to the best of my knowledge and ability to determine that no deliberate or willful omissions of compostion properties exist and that all known or suspected hazards have been disclosed. I certify that the materials tested are representative of all materials described by this document.

Scope of Service

CES will provide our US Coast Guard trailer unit and a PIC trained qualified operator as well as a field service truck with supervisor.

CES will provide a truck mounted diesel powered pump with a dual access manifold for 3" hose lines from tanker trailers capable of a transfer rate of up to 1000 GPM.

CES will provide an adequate supply of tank trailers and tractors to operate continuous throughout completion of the project estimated at the movement of either 17,000 Bbls or 110 tanker trailers whichever is greater.

CES will provide the hoses, PPE for CES crew, USCG documentation.

CES will provide all ancillary equipment required by the Coast Guard for the safe conditions for continuous operations.

CES will provide aforementioned services for the continuous operations estimated to a period of up to or over a 48 to 72 hour service.

		Estimated Costs	
Description of Service	Price	Estimated Quantity	Total
US Coast Guard trailer w/ PIC	$90.00 per hour	72 hours	$6,480.00
Field Services Truck w/ Operator	$55.00 per hour	72 hours	$3,960.00
4 Tractor Trailers for Material transfer from CMT to Cedar Port (Chambers County) Public Dock	$70.00 per hour per truck	72 hours for 4 trucks	$20,160.00
Fuel Surcharge		36.4%	$7,338.24
Trailer Washouts	$175 each	4	$700
PPE (per man/day)	$30.00 per set	6 sets	$180.00
Diesel Powered transfer pump	$1,000.00 per week	1 week	$1,000.00
Manifold	$500.00 per week	1 week	$500.00
6 " transfer hose from barge to pump	$2500 per section	3 sections	$7500.00
Light tower	$300 per day	3	$900
Cleaning of Equipment (Pumps, hoses, manifold etc.)	$125.00 per washout	1 washout	$125.00
Fuel Surcharge – pump	$15.00 per operating hour	72 hours	$1,080.00
Fuel Surcharge – transportation of equipment		36.4%	480.48
Estimated Total			$50,403.72

Conditions/Assumptions

The above pricing is based on time and materials, the customer's invoice will reflect the actual quantities utilized on the project.

Fuel surcharges will be added to any transportation related charges and are calculated according to the national average diesel price as published by the US Department of Energy. Current fuel surcharge is 36.4% of transportation rate.

Terms of these conditions and charges are valid for xx days.

Any changes of conditions or scope of this project will be conveyed to the assigned CMT personnel prior to the incurring of additional charges unless emergency conditions are encountered.

No assignment whether in part or whole of these services will occur unless written notice and approval from CMT has been obtained.

MSDS Used Oil (Rev. 8/08)

0 HMIS Health
1 HMIS Flammability
0 HMIS Reactivity
B HMIS Personal Protection

MATERIAL SAFETY DATA SHEET
Used Oil

SECTION I MATERIAL IDENTIFICATION

Product:	Used Oil
Description:	Used oil as defined in 40 CFR 279. May contain appreciable amounts of water.
Chemical Family:	Complex mixture of aliphatic and cyclic hydrocarbons.
CAS Number:	None - Mixture
Manufacturer:	Cedar Marine Terminals
Telephone:	281-383-5050
Chemtrec:	800-424-9300

SECTION II COMPOSITION/ INGREDIENTS

		OSHA-PEL		ACGIH-TLV	
Component (CAS#)	Concentration (%)	TWA	STEL	TWA	STEL
Petroleum Hydrocarbons[1]	1-99%	5 mg/m^3	10 mg/m^3	5 mg/m^3	10 mg/m^3
Water (7732-18-5)	1-99%	N/A	N/A	N/A	N/A
Total Halogens	<0.1% (typical)	N/A	N/A	N/A	N/A
Lead (7439-92-1)	<0.005% (typical)	0.05 mg/m^3	None	0.15 mg/m^3	N/A

1 – TWA as Oil Mist

SECTION III PHYSICAL DATA

Boiling Point	NA	Evaporation Rate	Nil
Specific Gravity	0.88 (water=1)	Vapor Pressure	<2 mmHg @ 60F
Solubility (water)	Insoluble	Vapor Density	>12 (air=1)
Appearance	Dark to light colored oil	Odor	Petroleum oil

SECTION IV FIRE AND EXPLOSION HAZARDS

Flash Point (Method D 93): >140F (>200F typical)
Flammable Limits (% Volume in Air): Upper - N/A Lower - N/A

Extinguishing Media: Use water fog, regular foam, dry chemical or CO_2. Do not use a direct stream of water. Product will float and can be re-ignited on surface of water.

Special Fire Fighting Procedures: Wear self-contained breathing apparatus. Wear structural firefighters protective clothing. Cool fire and exposed containers with water fog.

NFPA Classification: 0 – Health, 1 – Flammability, 0 – Reactivity (Combustible Liquid).

SECTION V STABILITY AND REACTIVITY

Stability: _____Unstable __X__ Stable

Hazardous Polymerization: _____May Occur __X__ Will Not Occur

Conditions and Materials to Avoid: Avoid heat, open flames, oxidizing materials and mist formation.

Hazardous Decomposition Products: Carbon monoxide and unidentified organic compounds may be formed during combustion.

SECTION VI HEALTH HAZARD DATA

Not expected to be a severe health hazard. No toxicological data available for used oil products. Fuel oils and other virgin oils generally represent a low order of acute toxicity to humans and experimental animals.

Primary Routes of Entry Inhalation ( ) Skin (X) Ingestion ( )

Inhalation: Exposure to vapors or mist of this product may cause pulmonary irritation, dizziness, and nausea.

Skin: Practically non-toxic if absorbed (LD50 >2000mg/Kg for virgin oil). Prolonged or repeated contact may cause various skin disorders such as dermatitis, folliculitis, or oil acne.

Ingestion Practically non-toxic (LD50 >15 g/KG for virgin oil).

N/A = Not Applicable ppm = Parts per Million

SECTION VII EMERGENCY AND FIRST AID PROCEDURES

Inhalation:	Remove victim to fresh air and provide oxygen if breathing is difficult. Seek medical attention.
Skin Contact:	Remove contaminated clothing and wipe off excess. Wash with soap and water or a water-less hand cleaner followed by soap and water. Do not reuse clothing until thoroughly cleaned. If irritation persists, seek medical attention.
Eye Contact:	Flush with water for 15 minutes while holding eyelids open. Seek medical attention.
Ingestion:	Do not induce vomiting. In general, no treatment is necessary unless large quantities of product are ingested. Seek medical advice.

SECTION VIII EXPOSURE CONTROL/PERSONAL PROTECTIVE EQUIPMENT

Ventilation:	Ventilation recommended when working in confined spaces and or when working with heated oil.
Respiratory Protection:	Concentration in air determines the need for respiratory protection. If air concentration exceeds OSHA occupational exposure limits, use a respirator to prevent exposure. In accordance with 29 CFR 1910.134 use either a NIOSH-approved air-supplying respirator or an air-purifying respirator for organic vapors and particulate.
Eye Protection:	Wear safety glasses or goggles to avoid eye contact.
Protective Clothing:	Wear gloves (PVC, Neoprene, Viton, Nitrile) and other protective clothing as required to minimize skin contact. Launder soiled clothing.
Additional Measures:	None

SECTION IX ENVIRONMENTAL PROTECTION

Spill Response:	Notifications may be required. Contact facility personnel or state environmental agency. Respond with trained personnel. Use caution when cleaning up spills.
Large Spills:	Wear respirator and protective clothing as appropriate. Secure source of spill if safe to do so. Dike and contain spilled liquid. Remove with vacuum trucks or pump to storage/salvage vessels. Soak up residue with an organic absorbent.
Small Spills:	Soak up with an absorbent material and dispose of properly.
Waste Disposal:	Dispose of waste materials in compliance with all federal, state and local regulations.
Ecological Data:	No aquatic toxicity or bioassay data available.

SECTION X SPECIAL PRECUATIONS

Minimize skin contact. Wash with soap and water before eating, drinking, or using toilet facilities. Launder contaminated clothing before reuse. Properly dispose of contaminated leather articles, including shoes and gloves that cannot be decontaminated.

SECTION XI RECOMMENDED TRANSPORTATION REQUIRMENTS

DOT Proper Shipping Name:	COMBUSTIBLE LIQUID, n.o.s., (Petroleum Oil), 3, NA1993, PG III
Placard Required:	Combustible (NA1993)
Bill of Lading Commodity Description:	Used Oil

SECTION XII SUPPLEMENTARY REGULATORY INFORMATION

Resource Conservation Recovery Act (RCRA):
Used oil as defined under 40 CFR 279 and applicable state regulations.

Clean Water Act (CWA):
This product is classified as oil under Section 311 of the CWA. Spills entering (a) surface waters or (b) any water courses or sewers entering / leading to surface waters that cause sheen must be reported to the National Response Center at 1-800-424-8802.

MSDS Used Oil (Rev. 8/08)

0 HMIS Health
1 HMIS Flammability
0 HMIS Reactivity
B HMIS Personal Protection

MATERIAL SAFETY DATA SHEET
Used Oil

SECTION I MATERIAL IDENTIFICATION

Product:	Used Oil
Description:	Used oil as defined in 40 CFR 279. May contain appreciable amounts of water.
Chemical Family:	Complex mixture of aliphatic and cyclic hydrocarbons.
CAS Number:	None - Mixture
Manufacturer:	Cedar Marine Terminals
Telephone:	281-383-5050
Chemtrec:	800-424-9300

SECTION II COMPOSITION/ INGREDIENTS

		OSHA-PEL		ACGIH-TLV	
Component (CAS#)	Concentration (%)	TWA	STEL	TWA	STEL
Petroleum Hydrocarbons[1]	1-99%	5 mg/m^3	10 mg/m^3	5 mg/m^3	10 mg/m^3
Water (7732-18-5)	1-99%	N/A	N/A	N/A	N/A
Total Halogens	<0.1% (typical)	N/A	N/A	N/A	N/A
Lead (7439-92-1)	<0.005% (typical)	0.05 mg/m^3	None	0.15 mg/m^3	N/A

1 – TWA as Oil Mist

SECTION III PHYSICAL DATA

Boiling Point	NA	Evaporation Rate	Nil
Specific Gravity	0.88 (water=1)	Vapor Pressure	<2 mmHg @ 60F
Solubility (water)	Insoluble	Vapor Density	>12 (air=1)
Appearance	Dark to light colored oil	Odor	Petroleum oil

SECTION IV FIRE AND EXPLOSION HAZARDS

Flash Point (Method D 93): >140F (>200F typical)
Flammable Limits (% Volume in Air): Upper - N/A Lower - N/A
Extinguishing Media: Use water fog, regular foam, dry chemical or CO_2. Do not use a direct stream of water. Product will float and can be re-ignited on surface of water.
Special Fire Fighting Procedures: Wear self-contained breathing apparatus. Wear structural firefighters protective clothing. Cool fire and exposed containers with water fog.
NFPA Classification: 0 – Health, 1 – Flammability, 0 – Reactivity (Combustible Liquid).

SECTION V STABILITY AND REACTIVITY

Stability: _____Unstable __X__ Stable

Hazardous Polymerization: _____May Occur __X__ Will Not Occur

Conditions and Materials to Avoid: Avoid heat, open flames, oxidizing materials and mist formation.
Hazardous Decomposition Products: Carbon monoxide and unidentified organic compounds may be formed during combustion.

SECTION VI HEALTH HAZARD DATA

Not expected to be a severe health hazard. No toxicological data available for used oil products. Fuel oils and other virgin oils generally represent a low order of acute toxicity to humans and experimental animals.

Primary Routes of Entry Inhalation ( ) Skin (X) Ingestion ( )

Inhalation: Exposure to vapors or mist of this product may cause pulmonary irritation, dizziness, and nausea.
Skin: Practically non-toxic if absorbed (LD50 >2000mg/Kg for virgin oil). Prolonged or repeated contact may cause various skin disorders such as dermatitis, folliculitis, or oil acne.
Ingestion Practically non-toxic (LD50 >15 g/KG for virgin oil).

N/A = Not Applicable ppm = Parts per Million

SECTION VII EMERGENCY AND FIRST AID PROCEDURES

Inhalation:	Remove victim to fresh air and provide oxygen if breathing is difficult. Seek medical attention.
Skin Contact:	Remove contaminated clothing and wipe off excess. Wash with soap and water or a water-less hand cleaner followed by soap and water. Do not reuse clothing until thoroughly cleaned. If irritation persists, seek medical attention.
Eye Contact:	Flush with water for 15 minutes while holding eyelids open. Seek medical attention.
Ingestion:	Do not induce vomiting. In general, no treatment is necessary unless large quantities of product are ingested. Seek medical advice.

SECTION VIII EXPOSURE CONTROL/PERSONAL PROTECTIVE EQUIPMENT

Ventilation:	Ventilation recommended when working in confined spaces and or when working with heated oil.
Respiratory Protection:	Concentration in air determines the need for respiratory protection. If air concentration exceeds OSHA occupational exposure limits, use a respirator to prevent exposure. In accordance with 29 CFR 1910.134 use either a NIOSH-approved air-supplying respirator or an air-purifying respirator for organic vapors and particulate.
Eye Protection:	Wear safety glasses or goggles to avoid eye contact.
Protective Clothing:	Wear gloves (PVC, Neoprene, Viton, Nitrile) and other protective clothing as required to minimize skin contact. Launder soiled clothing.
Additional Measures:	None

SECTION IX ENVIRONMENTAL PROTECTION

Spill Response:	Notifications may be required. Contact facility personnel or state environmental agency. Respond with trained personnel. Use caution when cleaning up spills.
Large Spills:	Wear respirator and protective clothing as appropriate. Secure source of spill if safe to do so. Dike and contain spilled liquid. Remove with vacuum trucks or pump to storage/salvage vessels. Soak up residue with an organic absorbent.
Small Spills:	Soak up with an absorbent material and dispose of properly.
Waste Disposal:	Dispose of waste materials in compliance with all federal, state and local regulations.
Ecological Data:	No aquatic toxicity or bioassay data available.

SECTION X SPECIAL PRECUATIONS

Minimize skin contact. Wash with soap and water before eating, drinking, or using toilet facilities. Launder contaminated clothing before reuse. Properly dispose of contaminated leather articles, including shoes and gloves that cannot be decontaminated.

SECTION XI RECOMMENDED TRANSPORTATION REQUIRMENTS

DOT Proper Shipping Name:	COMBUSTIBLE LIQUID, n.o.s., (Petroleum Oil), 3, NA1993, PG III
Placard Required:	Combustible (NA1993)
Bill of Lading Commodity Description:	Used Oil

SECTION XII SUPPLEMENTARY REGULATORY INFORMATION

Resource Conservation Recovery Act (RCRA):
Used oil as defined under 40 CFR 279 and applicable state regulations.

Clean Water Act (CWA):
This product is classified as oil under Section 311 of the CWA. Spills entering (a) surface waters or (b) any water courses or sewers entering / leading to surface waters that cause sheen must be reported to the National Response Center at 1-800-424-8802.

Used oil as defined under 40 CFR 279 and applicable state regulations.

Clean Water Act (CWA):
This product is classified as oil under Section 311 of the CWA. Spills entering (a) surface waters or (b) any water courses or sewers entering / leading to surface waters that cause sheen must be reported to the National Response Center at 1-800-424-8802.

MATERIAL SAFETY DATA SHEET
Used Oil

SECTION I MATERIAL IDENTIFICATION

Product:	Used Oil
Description:	Used oil as defined in 40 CFR 279. May contain appreciable amounts of water.
Chemical Family:	Complex mixture of aliphatic and cyclic hydrocarbons.
CAS Number:	None - Mixture
Manufacturer:	Cedar Marine Terminals
Telephone:	281-383-5050
Chemtrec:	800-424-9300

SECTION II COMPOSITION/ INGREDIENTS

		OSHA-PEL		ACGIH-TLV	
Component (CAS#)	Concentration (%)	TWA	STEL	TWA	STEL
Petroleum Hydrocarbons[1]	1-99%	5 mg/m^3	10 mg/m^3	5 mg/m^3	10 mg/m^3
Water (7732-18-5)	1-99%	N/A	N/A	N/A	N/A
Total Halogens	<0.1% (typical)	N/A	N/A	N/A	N/A
Lead (7439-92-1)	<0.005% (typical)	0.05 mg/m^3	None	0.15 mg/m^3	N/A

1 – TWA as Oil Mist

SECTION III PHYSICAL DATA

Boiling Point	NA	Evaporation Rate	Nil
Specific Gravity	0.88 (water=1)	Vapor Pressure	<2 mmHg @ 60F
Solubility (water)	Insoluble	Vapor Density	>12 (air=1)
Appearance	Dark to light colored oil	Odor	Petroleum oil

SECTION IV FIRE AND EXPLOSION HAZARDS

Flash Point (Method D 93): >140F (>200F typical)

Flammable Limits (% Volume in Air): Upper - N/A Lower - N/A

Extinguishing Media: Use water fog, regular foam, dry chemical or CO_2. Do not use a direct stream of water. Product will float and can be re-ignited on surface of water.

Special Fire Fighting Procedures: Wear self-contained breathing apparatus. Wear structural firefighters protective clothing. Cool fire and exposed containers with water fog.

NFPA Classification: 0 – Health, 1 – Flammability, 0 – Reactivity (Combustible Liquid).

SECTION V STABILITY AND REACTIVITY

Stability: _____Unstable __X__ Stable

Hazardous Polymerization: _____May Occur __X__ Will Not Occur

Conditions and Materials to Avoid: Avoid heat, open flames, oxidizing materials and mist formation.

Hazardous Decomposition Products: Carbon monoxide and unidentified organic compounds may be formed during combustion.

SECTION VI HEALTH HAZARD DATA

Not expected to be a severe health hazard. No toxicological data available for used oil products. Fuel oils and other virgin oils generally represent a low order of acute toxicity to humans and experimental animals.

Primary Routes of Entry Inhalation ( ) Skin (X) Ingestion ( )

Inhalation: Exposure to vapors or mist of this product may cause pulmonary irritation, dizziness, and nausea.

Skin: Practically non-toxic if absorbed (LD50 >2000mg/Kg for virgin oil). Prolonged or repeated contact may cause various skin disorders such as dermatitis, folliculitis, or oil acne.

Ingestion Practically non-toxic (LD50 >15 g/KG for virgin oil).

SECTION VII EMERGENCY AND FIRST AID PROCEDURES

Inhalation:	Remove victim to fresh air and provide oxygen if breathing is difficult. Seek medical attention.
Skin Contact:	Remove contaminated clothing and wipe off excess. Wash with soap and water or a water-less hand cleaner followed by soap and water. Do not reuse clothing until thoroughly cleaned. If irritation persists, seek medical attention.
Eye Contact:	Flush with water for 15 minutes while holding eyelids open. Seek medical attention.
Ingestion:	Do not induce vomiting. In general, no treatment is necessary unless large quantities of product are ingested. Seek medical advice.

SECTION VIII EXPOSURE CONTROL/PERSONAL PROTECTIVE EQUIPMENT

Ventilation:	Ventilation recommended when working in confined spaces and or when working with heated oil.
Respiratory Protection:	Concentration in air determines the need for respiratory protection. If air concentration exceeds OSHA occupational exposure limits, use a respirator to prevent exposure. In accordance with 29 CFR 1910.134 use either a NIOSH-approved air-supplying respirator or an air-purifying respirator for organic vapors and particulate.
Eye Protection:	Wear safety glasses or goggles to avoid eye contact.
Protective Clothing:	Wear gloves (PVC, Neoprene, Viton, Nitrile) and other protective clothing as required to minimize skin contact. Launder soiled clothing.
Additional Measures:	None

SECTION IX ENVIRONMENTAL PROTECTION

Spill Response:	Notifications may be required. Contact facility personnel or state environmental agency. Respond with trained personnel. Use caution when cleaning up spills.
Large Spills:	Wear respirator and protective clothing as appropriate. Secure source of spill if safe to do so. Dike and contain spilled liquid. Remove with vacuum trucks or pump to storage/salvage vessels. Soak up residue with an organic absorbent.
Small Spills:	Soak up with an absorbent material and dispose of properly.
Waste Disposal:	Dispose of waste materials in compliance with all federal, state and local regulations.
Ecological Data:	No aquatic toxicity or bioassay data available.

SECTION X SPECIAL PRECUATIONS

Minimize skin contact. Wash with soap and water before eating, drinking, or using toilet facilities. Launder contaminated clothing before reuse. Properly dispose of contaminated leather articles, including shoes and gloves that cannot be decontaminated.

SECTION XI RECOMMENDED TRANSPORTATION REQUIRMENTS

DOT Proper Shipping Name:	COMBUSTIBLE LIQUID, n.o.s., (Petroleum Oil), 3, NA1993, PG III
Placard Required:	Combustible (NA1993)
Bill of Lading Commodity Description:	Used Oil

SECTION XII SUPPLEMENTARY REGULATORY INFORMATION

Resource Conservation Recovery Act (RCRA):
Used oil as defined under 40 CFR 279 and applicable state regulations.

Clean Water Act (CWA):
This product is classified as oil under Section 311 of the CWA. Spills entering (a) surface waters or (b) any water courses or sewers entering / leading to surface waters that cause sheen must be reported to the National Response Center at 1-800-424-8802.

The property described below, in apparent good order, except as noted (content and condition of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this as meaning any person or corporation authorized to be in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. This Bill of Lading is a receipt for goods; it is not of itself a contract of carriage. It is mutually agreed, as to each carrier of all or as to any said over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions contained in the applicable contract between shipper and carrier or intermediary.

For payment: Charges to be billed to Shipper or the "Billed to" party are set forth in the governing contract with Shipper. No charges other than those contained therein may be billed to Shipper or the "Billed to" party without prior written consent of Shipper. The extra copy of this Bill of Lading, furnished at the time of shipment, must be attached to the freight bill submitted to Shipper or the "Billed to" party and sent to:

Bill Of Lading # : 54880

Folder ID :	Targa Midstream Services LP (Targa Midstream Services LP - Mont Belvieu) CBF Spent Caustic

Original – Shipper Provided Short Form Straight Bill of Lading – Not Negotiable – Domestic

SHIPPED FROM :
Targa Midstream Services LP
10319 Hwy 146 North
Mont Belvieu , TX 77580
(281) 385-3215

11a) 2301
11b)
11c)
11c)

The property described below, in apparent good order, except as noted (content and condition of packages unknown), marked, consigned, and destined as indicated below, which *said carrier (the word carrier being understood throughout this as meaning any person or corporation authorized to be in possession of the property under the contract) agrees to* carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. This Bill of Lading is a receipt for goods; it is not of itself a contract of carriage. It is mutually agreed, as to each carrier of all or as to any said over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions contained in the applicable contract between shipper and carrier or intermediary.

For payment: Charges to be billed to Shipper or the "Billed to" party are set forth in the governing contract with Shipper. No charges other than those contained therein may be billed to Shipper or the "Billed to" party without prior written consent of Shipper. The extra copy of this Bill of Lading, furnished at the time of shipment, must be attached to the freight bill submitted to Shipper or the "Billed to" party and sent to:

CONSIGNED TO :
CES Environmental Services, Inc.
4904 Griggs Rd.
Houston , TX 77021

CARRIER :
CES Environmental Services, Inc.
4904 Griggs Rd.
Houston , TX 77021

This is to certify that the product stated below are properly classified, described, packaged, marked and labeled and is in proper condition for transportation according to the applicable regulations of the Department of Transportation. If this Shipment moves between to ports by a carrier by water, the law requires that the Bill of Lading shall state whether it is "carrier's or shipper's weight."

Intermodal Certificate: All information required by Federal Highway Administration regulations at 49 CFR 390.5(B) implementing the Intermodal Safe Container Act of 1992 is set forth on the face of this bill of lading. The shipper name herein is the tendering party.

PURCHASE ORDER TERMS AND CONDITIONS

All shipments, shipping papers, invoices, and correspondence shall identify the applicable Targa Purchase Order Number.

Acceptance by Contractor of this Purchase Order shall be accomplished by delivery to Targa of a signed Purchase Order or by commencement of any Services provided for in this Purchase Order, whichever occurs first. This Purchase Order requires Contractor to provide the Services, including Materials, on a non-exclusive basis solely under the written terms contained in this Purchase Order which shall determine the rights of the Parties regardless of contrary or additional terms in any rate schedules, work orders, invoices, receipts or other documents which may flow from this Purchase Order's performance. Targa rejects any additional or contrary terms and conditions contained in any such document, and Targa's signature on any invoice, rate sheet or other document shall not constitute Targa's consent to any terms and conditions contained therein. This Purchase Order may be amended, modified or changed only by a Change Order, and continuation of the Services shall be deemed acceptance by Contractor of the Change Order. Targa expressly disclaims any unsigned amendments, alterations or modifications.

If Contractor has entered into a Master Services Agreement (as identified above by MSA number) with Targa or any of Targa's Affiliates, then this Purchase Order shall be governed by and incorporated by reference into such Master Services Agreement.

If Contractor has not entered into a Master Services Agreement with Targa or any of Targa's Affiliates, by placing this Purchase Order for the Services specified herein, Contractor hereby accepts the Targa Standard Purchase Order Terms and Conditions which are posted at http://www.targaresources.com/downloads/TargaSupplierT&C.pdf, and has fully read, understood and accepted the Targa Standard Purchase Order Terms and Conditions in their entirety and without modification. All modifications to the Targa Standard Purchase Order Terms and Conditions agreed to between Targa and Contractor are contained in this Purchase Order, if any. Contractor acknowledges that it had the opportunity to review and discuss the Targa Standard Purchase Order Terms and Conditions with Targa prior to entering into this Purchase Order. Should Contractor desire to discuss the Targa Standard Terms and Conditions with Targa, or if Contractor has difficulty retrieving the posted Targa Standard Terms and Conditions, please contact the Targa representative listed as the "Buyer" above to assist. Targa reserves the right to modify the Targa Standard Purchase Order Terms and Conditions from time-to-time at its sole discretion; thus, Contractor shall be obligated to review such updated Targa Standard Purchase Order Terms and Conditions upon receipt of each Purchase Order from Targa or any of its Affiliates.

For purposes of this Purchase Order and the underlying agreement to which this Purchase Order relates, the terms "Contractor", "Consultant" and "Vendor" are used interchangeably to mean the party providing the Services to Targa. All terms capitalized in this Purchase Order and not defined herein are as defined in the Master Services Agreement or Targa Standard Purchase Order Terms and Conditions, as applicable.

** If Contractor currently holds a valid Direct Pay Permit (DPP) from the specific purchasing entity above, the Tax Exempt indicator and Tax Amounts should be disregarded. Targa will self-remit any sales or use tax due on its appropriate DPP. This exception does NOT apply when Contractors are responsible for tax.

All shipments, shipping papers, invoices, and correspondence must identify the applicable Targa Purchase Order Number.

The property described below, in apparent good order, except as noted (content and condition of packages unknown), marked, consigned, and destined as indicated below, which *said carrier (the word carrier being understood throughout this as meaning any person or corporation authorized to be in possession of the property under the contract) agrees to* carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. This Bill of Lading is a receipt for goods; it is not of itself a contract of carriage. It is mutually agreed, as to each carrier of all or as to any said over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions contained in the applicable contract between shipper and carrier or intermediary.

For payment: Charges to be billed to Shipper or the "Billed to" party are set forth in the governing contract with Shipper. No charges other than those contained therein may be billed to Shipper or the "Billed to" party without prior written consent of Shipper. The extra copy of this Bill of Lading, furnished at the time of shipment, must be attached to the freight bill submitted to Shipper or the "Billed to" party and sent to:

PURCHASE ORDER TERMS AND CONDITIONS

All shipments, shipping papers, invoices, and correspondence shall identify the applicable Targa Purchase Order Number.

Acceptance by Contractor of this Purchase Order shall be accomplished by delivery to Targa of a signed Purchase Order or by commencement of any Services provided for in this Purchase Order, whichever occurs first. This Purchase Order requires Contractor to provide the Services, including Materials, on a non-exclusive basis solely under the written terms contained in this Purchase Order which shall determine the rights of the Parties regardless of contrary or additional terms in any rate schedules, work orders, invoices, receipts or other documents which may flow from this Purchase Order's performance. Targa rejects any additional or contrary terms and conditions contained in any such document, and Targa's signature on any invoice, rate sheet or other document shall not constitute Targa's consent to any terms and conditions contained therein. This Purchase Order may be amended, modified or changed only by a Change Order, and continuation of the Services shall be deemed acceptance by Contractor of the Change Order. Targa expressly disclaims any unsigned amendments, alterations or modifications.

If Contractor has entered into a Master Services Agreement (as identified above by MSA number) with Targa or any of Targa's Affiliates, then this Purchase Order shall be governed by and incorporated by reference into such Master Services Agreement.

If Contractor has not entered into a Master Services Agreement with Targa or any of Targa's Affiliates, by placing this Purchase Order for the Services specified herein, Contractor hereby accepts the Targa Standard Purchase Order Terms and Conditions which are posted at http://www.targaresources.com/downloads/TargaSupplierT&C.pdf, and has fully read, understood and accepted the Targa Standard Purchase Order Terms and Conditions in their entirety and without modification. All modifications to the Targa Standard Purchase Order Terms and Conditions agreed to between Targa and Contractor are contained in this Purchase Order, if any. Contractor acknowledges that it had the opportunity to review and discuss the Targa Standard Purchase Order Terms and Conditions with Targa prior to entering into this Purchase Order. Should Contractor desire to discuss the Targa Standard Terms and Conditions with Targa, or if Contractor has difficulty retrieving the posted Targa Standard Terms and Conditions, please contact the Targa representative listed as the "Buyer" above to assist. Targa reserves the right to modify the Targa Standard Purchase Order Terms and Conditions from time-to-time at its sole discretion; thus, Contractor shall be obligated to review such updated Targa Standard Purchase Order Terms and Conditions upon receipt of each Purchase Order from Targa or any of its Affiliates.

For purposes of this Purchase Order and the underlying agreement to which this Purchase Order relates, the terms "Contractor", "Consultant" and "Vendor" are used interchangeably to mean the party providing the Services to Targa. All terms capitalized in this Purchase Order and not defined herein are as defined in the Master Services Agreement or Targa Standard Purchase Order Terms and Conditions, as applicable.

** If Contractor currently holds a valid Direct Pay Permit (DPP) from the specific purchasing entity above, the Tax Exempt indicator and Tax Amounts should be disregarded. Targa will self-remit any sales or use tax due on its appropriate DPP. This exception does NOT apply when Contractors are responsible for tax.

All shipments, shipping papers, invoices, and correspondence must identify the applicable Targa Purchase Order Number.

Subject: RE: Invoice

You have sent me 9 invoices that are all from November 2007 LSNG this is well over $18,000.00 dollars. What happened to getting all invoices in before December 12, 2007? This is a big bill that now is going to go on my 2008 budget expenses that were really for 2007. Not a good deal. You see now I have to tell my supervisor that the reason I am over budget for 2008 is because my vendor can not get their invoices in on time. These are over three months ago when these charges were made and the invoice is even dated November 2007. I am not sure some of these haven't been paid. Now I will have to check that out before I can make the PO out so that is going to take me some time. This is invoice # 40633, 40631, 40630, 40461, 40460, 40351, 40350, 40148, 40146 and 40145.

Houston, TX 77021

From: Karin Staschke
Program Manager
Business & Legal Reports

6367468 /10028300/BLR2/MQS1536

Your Single Source for Safety, Health, and Security Policies!

There are no laws requiring employers to have handbooks and policy manuals, even for safety and health issues. Then why should your company go to the trouble and expense of creating written policies? In two words—safety pays!

BLR's *NEW* ***Essential Safety Policies*** is an authoritative source of guidance and information to which managers and supervisors can turn not only in situations where the "right" course of action is unclear, but also in cases where they are tempted to act on memory or instinct.

With a policy manual to point the way, company managers and supervisors will be able to act swiftly, decisively, fairly, legally, and consistently. Employees will know then that they are being protected from personal bias and poor judgment.

Your manual includes policies on personal protective equipment, workers' compensation, security rules and regulations, fire prevention, and more.

FREE REPORT

Just for previewing ***Essential Safety Policies***, I'd like to send you a FREE copy of *Accident Investigation: Proven Strategies to Make Yours a Tool for Prevention*. This report discusses the proven strategies that can help you reap the biggest benefits from your accident investigations. It will guide you through the investigation stage, the analysis stage, and the recommendation stage.

Just print your name below and fax this letter to 860-510-7220. We'll rush you your FREE special report, *Accident Investigation: Proven Strategies to Make Yours a Tool for Prevention,* along with ***Essential Safety Policies*** to review risk-free for 30 days. If you like it, pay just $254—a 15% discount. If not, return it at our expense and owe nothing.

THE FREE REPORT IS YOURS TO KEEP NO MATTER WHAT.

Sign here to review ***Essential Safety Policies*** and to receive your FREE SPECIAL REPORT.

PURCHASE ORDER TERMS AND CONDITIONS

All shipments, shipping papers, invoices, and correspondence shall identify the applicable Targa Purchase Order Number.

Acceptance by Contractor of this Purchase Order shall be accomplished by delivery to Targa of a signed Purchase Order or by commencement of any Services provided for in this Purchase Order, whichever occurs first. This Purchase Order requires Contractor to provide the Services, including Materials, on a non-exclusive basis solely under the written terms contained in this Purchase Order which shall determine the rights of the Parties regardless of contrary or additional terms in any rate schedules, work orders, invoices, receipts or other documents which may flow from this Purchase Order's performance. Targa rejects any additional or contrary terms and conditions contained in any such document, and Targa's signature on any invoice, rate sheet or other document shall not constitute Targa's consent to any terms and conditions contained therein. This Purchase Order may be amended, modified or changed only by a Change Order, and continuation of the Services shall be deemed acceptance by Contractor of the Change Order. Targa expressly disclaims any unsigned amendments, alterations or modifications.

If Contractor has entered into a Master Services Agreement (as identified above by MSA number) with Targa or any of Targa's Affiliates, then this Purchase Order shall be governed by and incorporated by reference into such Master Services Agreement.

If Contractor has not entered into a Master Services Agreement with Targa or any of Targa's Affiliates, by placing this Purchase Order for the Services specified herein, Contractor hereby accepts the Targa Standard Purchase Order Terms and Conditions which are posted at http://www.targaresources.com/downloads/TargaSupplierT&C.pdf, and has fully read, understood and accepted the Targa Standard Purchase Order Terms and Conditions in their entirety and without modification. All modifications to the Targa Standard Purchase Order Terms and Conditions agreed to between Targa and Contractor are contained in this Purchase Order, if any. Contractor acknowledges that it had the opportunity to review and discuss the Targa Standard Purchase Order Terms and Conditions with Targa prior to entering into this Purchase Order. Should Contractor desire to discuss the Targa Standard Terms and Conditions with Targa, or if Contractor has difficulty retrieving the posted Targa Standard Terms and Conditions, please contact the Targa representative listed as the "Buyer" above to assist. Targa reserves the right to modify the Targa Standard Purchase Order Terms and Conditions from time-to-time at its sole discretion; thus, Contractor shall be obligated to review such updated Targa Standard Purchase Order Terms and Conditions upon receipt of each Purchase Order from Targa or any of its Affiliates.

For purposes of this Purchase Order and the underlying agreement to which this Purchase Order relates, the terms "Contractor", "Consultant" and "Vendor" are used interchangeably to mean the party providing the Services to Targa. All terms capitalized in this Purchase Order and not defined herein are as defined in the Master Services Agreement or Targa Standard Purchase Order Terms and Conditions, as applicable.

** If Contractor currently holds a valid Direct Pay Permit (DPP) from the specific purchasing entity above, the Tax Exempt indicator and Tax Amounts should be disregarded. Targa will self-remit any sales or use tax due on its appropriate DPP. This exception does NOT apply when Contractors are responsible for tax.

All shipments, shipping papers, invoices, and correspondence must identify the applicable Targa Purchase Order Number.

Bill Of Lading # : 54881

Folder ID :	Targa Midstream Services LP (Targa Midstream Services LP - Mont Belvieu) LSNG Spent Caustic

Original – Shipper Provided Short Form Straight Bill of Lading – Not Negotiable – Domestic

SHIPPED FROM :
Targa Midstream Services LP
10319 Hwy 146 North
Mont Belvieu , TX 77580
(281) 385-3215

11a) 2300
11b)
11c)
11c)

The property described below, in apparent good order, except as noted (contents and condition of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this as meaning any person or corporation authorized to be in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. This Bill of Lading is a receipt for goods; it is not of itself a contract of carriage. It is mutually agreed, as to each carrier of all or as to any said over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions contained in the applicable contract between shipper and carrier or intermediary.

For payment: Charges to be billed to Shipper or the "Billed to" party are set forth in the governing contract with Shipper. No charges other than those contained therein may be billed to Shipper or the "Billed to" party without prior written consent of Shipper. The extra copy of this Bill of Lading, furnished at the time of shipment, must be attached to the freight bill submitted to Shipper or the "Billed to" party and sent to:

CONSIGNED TO :
CES Environmental Services, Inc.
4904 Griggs Rd.
Houston , TX 77021

CARRIER :
CES Environmental Services, Inc.
4904 Griggs Rd.
Houston , TX 77021

This is to certify that the product stated below are properly classified, described, packaged, marked and labeled and is in proper condition for transportation according to the applicable regulations of the Department of Transportation. If this Shipment moves between to ports by a carrier by water, the law requires that the Bill of Lading shall state whether it is "carrier's or shipper's weight."

Intermodal Certificate: All information required by Federal Highway Administration regulations at 49 CFR 390.5(B) implementing the Intermodal Safe Container Act of 1992 is set forth on the face of this bill of lading. The shipper name herein is the tendering party.

The property described below, in apparent good order, except as noted (content and condition of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this as meaning any person or corporation authorized to be in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. This Bill of Lading is a receipt for goods; it is not of itself a contract of carriage. It is mutually agreed, as to each carrier of all or as to any said over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions contained in the applicable contract between shipper and carrier or intermediary.

For payment: Charges to be billed to Shipper or the "Billed to" party are set forth in the governing contract with Shipper. No charges other than those contained therein may be billed to Shipper or the "Billed to" party without prior written consent of Shipper. The extra copy of this Bill of Lading, furnished at the time of shipment, must be attached to the freight bill submitted to Shipper or the "Billed to" party and sent to:

11c)
11c)

The property described below, in apparent good order, except as noted (content and condition of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this bill meaning any person or corporation authorized to be in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. This Bill of Lading is a receipt for goods; it is not of itself a contract of carriage. It is mutually agreed, as to each carrier of all or as to any said over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions contained in the applicable contract between shipper and carrier or intermediary.

For payment: Charges to be billed to Shipper or the "Billed to" party are set forth in the governing contract with Shipper. No charges other than those contained therein may be billed to Shipper or the "Billed to" party without prior written consent of Shipper. The extra copy of this Bill of Lading, furnished at the time of shipment, must be attached to the freight bill submitted to Shipper or the "Billed to" party and sent to:

CONSIGNED TO :
CES Environmental Services, Inc.
4904 Griggs Rd.
Houston , TX 77021

CARRIER :
CES Environmental Services, Inc.
4904 Griggs Rd.

The property described below, in apparent good order, except as noted (contents and condition of packages unknown), marked, consigned, and destined as indicated below, which *said carrier (the word carrier being understood throughout this as meaning any person or corporation authorized to be in possession of the property under the contract) agrees to* carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. This Bill of Lading is a receipt for goods; it is not of itself a contract of carriage. It is mutually agreed, as to each carrier of all or as to any said over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions contained in the applicable contract between shipper and carrier or intermediary.

For payment: Charges to be billed to Shipper or the "Billed to" party are set forth in the governing contract with Shipper. No charges other than those contained therein may be billed to Shipper or the "Billed to" party without prior written consent of Shipper. The extra copy of this Bill of Lading, furnished at the time of shipment, must be attached to the freight bill submitted to Shipper or the *"Billed to"* party and sent to:

DOT Shipping Description

Carrier certifies that the cargo tank supplied for this shipment is a proper container for the transportation of this commodity under applicab Department of Transportation regulations. Carrier accepts this material. Liability and risks pass to CARRIER upon delivery into truck. Ab gallon received and odorized.

THIS IS TO CERTIFY THAT THE ABOVE-NAMED MATERIALS ARE PROPERLY CLASSIFIED, DESCRIBED, PACKAGED, MARKED, LABELED AND ARE IN PROPER CONDITION FOR TRANSPORTATION, ACCORDING TO THE APPLICABLE REGULATIONS OF THE DEPARTMENT OF TRANSPORTATION.

Not Odorized Odorized With Pounds of Ethyl Mercaptan

Loader Signature_____ Carrier Signature_____

No product was released into the atmosphere. _____ (initial)

POTENTIAL HAZARDS

FIRE OR EXPLOSION

Flammable/combustible material; may be ignited by heat, sparks or flames.
Vapors may travel to a source of ignition and flash back.
Container may explode in heat of fire.
Vapor explosion hazard indoors, outdoors or in sewers.
Runoff to sewer may create fire or explosion hazard.

HEALTH HAZARDS

May be poisonous if inhaled or absorbed through skin.
Keep out of reach of children. Vapors may cause dizziness or suffocation.
Contact may irritate or burn skin and eyes.
Fire may produce irritating or poisonous gases.
Runoff from fire control or dilution water may cause pollution.
Long-term exposure to vapor has caused cancer in laboratory animals.

EMERGENCY ACTION

Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind, out of low areas.
Positive Pressure self-container breathing apparatus (SCBA) and structural firefighter's protective clothing will provide limited protection.
Isolate for 1/2 mile in all directions if tank, rail car or tank truck is involved in fire.
CALL CHEMTREC AT 1-800-424-9300 FOR EMERGENCY ASSISTANT. If water pollution occurs, notify the appropriate authorities.

FIRE

Small Fires: Dry chemical or CO_2, water spray or regular foam.
Large Fires: Water spray, fog, or regular form is recommended.
Move container from fire if you can do it without risk.
Apply cooling water to sides of containers that are exposed to flames until well after fire is out. Stay away from ends of tanks.
For massive fire in cargo area, use unmanned hose holder or monitor nozzles; if this is impossible, withdraw from are a and let fire burn.
Withdraw immediately in case of rising sound from venting safety device or any discoloration of tank due to fire.

SPILL OR LEAK

Shut off ignition sources; no flares, smoking or flames in hazard area.
Stop leak if you can do it without risk.
Water spray may reduce vapor; but it may not prevent ignition in closed spaces.
Small Spills: Take up with sand or other noncombustible absorbent material and place into containers for later disposal.
Large Spills: Dike far ahead of liquid spills for later disposal.

FIRST AID

Move victim to fresh air and call emergency medical care; if not breathing, give artificial respiration; if breathing is difficult, give oxygen.
In case of contact with material, immediately flush eyes with running water for at least 15 minutes. Wash skin with soap & water.
Remove and isolate contaminated clothing and shoes at the site.

For Product Emergency, Spill, Leaks, Fire, Exposure or Accident call CHEMTREC toll-free 1-800-424-9300 collect (202) 483-7616 if in Alaska, Washington, D.C. or outside of the U.S.A..

PURCHASE ORDER TERMS AND CONDITIONS

All shipments, shipping papers, invoices, and correspondence shall identify the applicable Targa Purchase Order Number.

Acceptance by Contractor of this Purchase Order shall be accomplished by delivery to Targa of a signed Purchase Order or by commencement of any Services provided for in this Purchase Order, whichever occurs first. This Purchase Order requires Contractor to provide the Services, including Materials, on a non-exclusive basis solely under the written terms contained in this Purchase Order which shall determine the rights of the Parties regardless of contrary or additional terms in any rate schedules, work orders, invoices, receipts or other documents which may flow from this Purchase Order's performance. Targa rejects any additional or contrary terms and conditions contained in any such document, and Targa's signature on any invoice, rate sheet or other document shall not constitute Targa's consent to any terms and conditions contained therein. This Purchase Order may be amended, modified or changed only by a Change Order, and continuation of the Services shall be deemed acceptance by Contractor of the Change Order. Targa expressly disclaims any unsigned amendments, alterations or modifications.

If Contractor has entered into a Master Services Agreement (as identified above by MSA number) with Targa or any of Targa's Affiliates, then this Purchase Order shall be governed by and incorporated by reference into such Master Services Agreement.

If Contractor has not entered into a Master Services Agreement with Targa or any of Targa's Affiliates, by placing this Purchase Order for the Services specified herein, Contractor hereby accepts the Targa Standard Purchase Order Terms and Conditions which are posted at http://www.targaresources.com/downloads/TargaSupplierT&C.pdf, and has fully read, understood and accepted the Targa Standard Purchase Order Terms and Conditions in their entirety and without modification. All modifications to the Targa Standard Purchase Order Terms and Conditions agreed to between Targa and Contractor are contained in this Purchase Order, if any. Contractor acknowledges that it had the opportunity to review and discuss the Targa Standard Purchase Order Terms and Conditions with Targa prior to entering into this Purchase Order. Should Contractor desire to discuss the Targa Standard Terms and Conditions with Targa, or if Contractor has difficulty retrieving the posted Targa Standard Terms and Conditions, please contact the Targa representative listed as the "Buyer" above to assist. Targa reserves the right to modify the Targa Standard Purchase Order Terms and Conditions from time-to-time at its sole discretion; thus, Contractor shall be obligated to review such updated Targa Standard Purchase Order Terms and Conditions upon receipt of each Purchase Order from Targa or any of its Affiliates.

For purposes of this Purchase Order and the underlying agreement to which this Purchase Order relates, the terms "Contractor", "Consultant" and "Vendor" are used interchangeably to mean the party providing the Services to Targa. All terms capitalized in this Purchase Order and not defined herein are as defined in the Master Services Agreement or Targa Standard Purchase Order Terms and Conditions, as applicable.

** If Contractor currently holds a valid Direct Pay Permit (DPP) from the specific purchasing entity above, the Tax Exempt indicator and Tax Amounts should be disregarded. Targa will self-remit any sales or use tax due on its appropriate DPP. This exception does NOT apply when Contractors are responsible for tax.

All shipments, shipping papers, invoices, and correspondence must identify the applicable Targa Purchase Order Number.

Subject: Cleanout and heel on trailer 233 from BEF

Ed, Sid, Alton

As discussed, we had to dig out 1,400 gallons of heel (28 drums) from a trailer that we hauled from the flare separator pit. This was the first load picked up during the recent unit cleanout and wash down. The solids are probably mainly catalyst, dirt, and maybe some xylene. The benzene levels of this sludge were high and we will have to manage the heel as hazardous waste. The two items attached are the bill and the analysis for the heel digout. Please let me know if you have any questions as this was an expensive dig-out and disposal.

Matt

Original – Shipper Provided Short Form Straight Bill of Lading – Not Negotiable – Domestic

SHIPPED FROM :
Enterprise Products Operating, L.P.
10207 FM 1942, Attn: Rachel Wheaton
Mont Belvieu , TX 77580
(281) 385-4200

CES Profile #
11a) 1336
11b)
11c)
11c)

The property described below, in apparent good order, except as noted (content and condition of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this as meaning any person or corporation authorized to be in possession of the property under the contract) agrees to carry to its unusual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. This Bill of Lading is a receipt for goods; it is not of itself a contract of carriage. It is mutually agreed, as to each carrier of all or as to any said over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions contained in the applicable contract between shipper and carrier or intermediary.

For payment: Charges to be billed to Shipper or the "Billed to" party are set forth in the governing contract with Shipper. No charges other than those contained therein may be billed to Shipper or the "Billed to" party without prior written consent of Shipper. The extra copy of this Bill of Lading, furnished at the time of shipment, must be attached to the freight bill submitted to Shipper or the "Billed to" party and sent to:

CONSIGNED TO :
CES Environmental Services, Inc.
