Adrian – During our June 14 call on the petition to withdraw we mentioned that we had received letters of support for the petition to withdraw WDNRs NPDES program and that these would be posted along with other petition documents on our web site. DNR asked for copies of these letters which are attached. Note that most included Ms Stepp and Pat as cc's. These letters do not raise new allegations so they will simply be included in the record. Posting of these to our web site will occur sometime in July.

I would appreciate your sharing these with your team. Please let me know if you have any questions
