Board Order WT-12-12 post-comments for DNR-EPA Discussion.docx

Thanks for forwarding the draft rule package 5 with tracked changes based on comments and comments the Department received. The information has been routed to appropriate staff in R5. However do to the timing of receipt of information forwarded in relation to the call scheduled for this afternoon EPA does not have ample time for a thorough review and comment. I suggest that the call preceded as schedule and we do a walk through with the understanding that EPA might need additional time for processing all information.

Thanks!

Subject: RP5 for EPA Review/Discussion tomorrow

Quintin,

First and foremost, thank you to you and your colleagues at EPA for your comments on Rule Package 5. We found many quite helpful and appreciated the opportunity to address them during the official comment period. Please see the attached draft rule package (with track changes/edits based on comments) and the comments DNR received. I realize that we are not giving you much time for review before our discussion tomorrow (my apologies), so we will plan walk through our responses to EPA's comments, summarize comments from other parties, and hope to spend time discussing antibacksliding. Please let me and Robin know if there are any specific points you would like to add to this informal agenda, and please share this with your EPA colleagues planning to join our call in the afternoon.

Thanks, and talk to you tomorrow,

Jason
