Subject: RE: Former Clark 823, Mt. Pleasant, MI VI report

Hi Bill,

There have been a couple of iterations of an internal decision memo that have gone to our attorney for review. Once it is finalized, we can move forward with identifying the specific language we need in a closure approval. The work on the memo is being done by another person in my section.

It might be helpful to have a call with you and our attorney so we can discuss the steps moving forward. Any final decision on closure will need to be reviewed by the tribe. We will need a concurrence from them on closure. There is a fairly new contact at the tribe who we have been working with, and he is very interested in moving qualifying sites through the closure process. Possibly a discussion with all of us would be helpful.

Let me know what you think.

Regards,

Bob

Hello Bob-

Is there any news to report on this project? We would really like to proceed towards closure of this release.

Thanks for your help-

Hi Bill,

Due to workload issues, my supervisor asked a colleague to help with preparation of our administrative record for the site. I will check with her to see what progress has been made with our legal folks.

Hi Bob-

Any update on this?

Thanks, Bill.

I have an attorney assigned to the site file and am preparing a site status memo to share with the tribe. We will need to ask them to provide input prior to moving toward closure. They may or may not decide to offer comments.

I took a quick look at the report and it appears that there was good news on the sample results.

Talk to you soon.

Bob

Subject: Former Clark 823, Mt. Pleasant, MI VI report

Bob-

Please see the attached report discussing the results of the VI investigation at the former Clark #823 site in Mt. Pleasant, MI.

I will give you a call next week to discuss what we should do next to close the site.

Thanks for your help.
