Hi Jeff,

I am working on the order right now and I need to focus on that. Sorry.

However, please make sure you saw the houses in yellow at the bottom of the spreadsheet I sent you last night. Please scroll down. You should see a house with 32,000 ppt PFOS. All of the houses at the bottom of the spreadsheet had PFOA or PFOS over 1000 ppt. If you could verify that you see the list, that would be great.

Thank you,
Jenny

All –

Please provide comments to these to me by 11 am CST (Noon EST) tomorrow so we can finalize these documents by COB tomorrow.

- call with questions

SOPs will come in a separate email for your reference

Jeff,

I incorporated your changes and also made similar changes within the QAPP wherever the information overlapped.

Jeff,

Attached are the SOPs for the SAP that you had mentioned you did not receive as I originally sent them in a zip file.

Thanks

Jeff

Attached please find the draft SAP and QAPP for the Wolverine World Wide Tannery Site for your review. Please note that an SOP is missing from the attached zip file but I won't be able to track it down until the morning. Additionally, we reached out to CRL folks to obtain the reporting limits for Worksheet #15 yesterday but we have yet to get the information needed to fill out that table. We have left that section highlighted but wanted to get this in your hands for review while that is being sorted out.

Please contact me with any questions, we look forward to your comments.

Thanks
