Subject: updated ozone map

Good morning, Ed.

I hope you had a nice weekend.

There were some new Administrator decisions/changes late Thursday/Friday. I was wondering if you could make an updated Region 5 map?

FYI the new areas have been updated in the ozone designations mapping tool, if that makes it easier for you.

The two changes are:
1) dropping Monroe County, IL from the St. Louis area
2) and dropping McHenry County, IL from the Chicago area

Thanks,
Jenny

Here's the updated st. louis
Let me know if there are any other changes…I didn't get to experiment with the wider borders…

Oops sorry, I meant to tell you, she thinks it was Calibri but could not go back to verify and check the size, since she made it a .jpeg and that's all she saved.

Can you ask Kathleen what font she used for the map? And what font size…esp for the small area labels. thanks
