**Subject:** Superfund Zone resident contact list - Contains PII

Hi Greg,

Please see the attached information, per your email below. We will get the Drummond properties to you next week.

Thanks,

Jacob

**Subject:** Superfund Zone resident contact list

Gentlemen:

The East Chicago Sanitary District has recently started performing a video inspection of the sanitary sewer lines in the Superfund Zones in order to identify any necessary repairs requiring immediate attention, in addition to other opportunities for improvements tied to long-term planning. The work is currently being performed in Zone 3 on Drummond and Carey Streets in an effort to complete the inspection before the soil remediation activity is fully underway.

Video inspections are being performed block-by-block and typically are completed within a 6-hour window from 1 pm - 7 pm Mon-Sat, depending on wet weather precipitation. To help with coordination of the Sanitary District's inspection activities, the department would appreciate being able to obtain an updated contact list of property-owners and residents from U.S. EPA based on outreach to various property-owners in the Superfund Zones. The updated contact list will help the Sanitary District to place phone calls to inform residents of the timing for when video inspection (and sewer main cleaning) will be performed on a particular block.

The Sanitary District would also like to be included in regular weekly construction coordination meetings with U.S. EPA to better facilitate communication among various stakeholders regarding upcoming work activity for planning purposes, and to prevent confusion and conflict within the construction zone(s).

ECSD will be resuming video inspection on the 147th and 148th blocks of Carey Street on May 1st. Is contact information available for those locations?

Thanks,
Greg Crowley, P.E.
