Subject: RE: Rover pipeline construction spills

We have not been involved on the 402 side. OEPA is taking the lead so far.

Subject: Rover pipeline construction spills

Wendy, Peter, and Pat,
We saw this news story this morning and wanted to make sure that your programs were aware of this situation involving construction spills in to wetlands from the Rover Natural Gas Pipeline project. We reviewed the FERC EIS for this project last year and would be interested in any sharable news on compliance/enforcement activities.
Ken
