REPLY TO THE ATTENTION OF:

The Honorable Fred Upton
House of Representatives
Washington, D.C. 20515

Dear Congressman Upton:

Thank you for your August 1, 2013 letter regarding the Allied Paper Landfill portion of the Allied Paper/Portage Creek/Kalamazoo River Superfund Site in Kalamazoo, Michigan.

The U.S. Environmental Protection Agency is evaluating a variety of cleanup alternatives for the site – including the "permanent removal" alternative suggested in your letter. EPA's evaluation will include an analysis of total cleanup costs, including long-term operation and maintenance costs, for all alternatives. We will continue to work with you, the City, and other stakeholders as EPA develops a proposed cleanup plan.

EPA and the City of Kalamazoo have discussed the extent to which various cleanup alternatives might be implemented to achieve some or all of the City's redevelopment scenarios for the site. If the City takes ownership of all or a portion of the site, EPA would be willing to explore appropriate environmental liability protections, such as the "comfort letter" that you suggest.

Again, thank you for your letter. If you have further questions, please contact me or your staff may contact Denise Gawlinski or Kate Balasa, the Region 5 Congressional Liaisons, at (312) 886-3000.

Sincerely,

Susan Hedman
Regional Administrator
