Hi –
We are working out a good time to meet at our end and will get back to you.
Thanks.
Carolyn

Yes, I believe that is a good idea. We need to be on the same page with respect to what you are asking for and how the responsibilities need to be allocated from a legal/contractual standpoint. I could be available late afternoon tomorrow or Wednesday. I am scheduled to be out of the office most of the day this Thursday, but should be back in the office all day Friday.

Sincerely,

Bradley E. Gentry, LPG

It may be worthwhile to have a quick call to fully understand what format you need.

Subject: RE: Amphenol - Conceptual Level Remedy Design Plan

Thanks for this information, but we still need a conceptual description of the remedy.

EPA does not have oversight authority over the City, so some of these details, including the logistical details, need to be further explained and may require EPA approval.

Please prepare and submit a document explaining the conceptual remedy before your agreements get too far down the road.

Thanks.

Carolyn

Subject: Re: Amphenol - Conceptual Level Remedy Design Plan

The quick and easy answer is that the City and/or their contractor will be performing the civil work under the oversight of Amphenol and the EPA. Amphenol will prepare all necessary documents for EPA approval. Amphenol will also reimburse the City for all costs. It is key to have the work performed by the City so they are indemnified against poor workmanship, damage or injury. The City has prepared a draft agreement that we are currently having our legal group review.

At the end of the day, Amphenol is responsible for the remedial activities but the City will perform the work.

Subject: Amphenol - Conceptual Level Remedy Design Plan

Hi Joe,
You provided the soil sampling work plan in response to our request for the Interim Measure design document. EPA agreed that that was a necessary step in the design process. However, we need a better understanding of the overall plan, including which portions of the remedy/street restoration will be completed by the City of Franklin. Would you please submit a conceptual-level design of the IM that includes an overview of the remedy and how you plan to coordinate with Franklin?
Let me know if you have any questions.

Thanks.
Carolyn
