Subject: RE: Former Westinghouse Equipment Repair Facility - Historical Site Characterization Report

Moises,
To download the 2009 Supplemental Subsurface Investigation Report from our FTP site please click HERE

We'll look into creating hard copies of the 2005 reports next week.

Subject: Former Westinghouse Equipment Repair Facility - Historical Site Characterization Report

Allen,

Would be possible to send us the 2009 Supplemental Subsurface Investigation Report (electronic format) that presents the results of investigation conducted in the Warehouse Building and adjoin areas.

We don't have a bind report. We have only separate figures, tables and appendices. In case you prefer to send it via email, please be aware that DTSC has a document size restriction of 30 MB.

Also, we don't have a bind report for Phase II Remedial Investigation Results (Environmental Strategies Consulting, August 17, 2005) ad Summary of Investigation Activities for Phase II Areas (Environmental Strategies Consulting, March 3, 2005). If available, please send us a hard copy as I would like to file them at our Branch Unit File Room.

Thanks
