Hassan and Shaheen, and Congresswomen Shea-Porter and Kuster, regarding recent news on PFAS work being done by ATSDR and EPA comments on the ATSDR work. I'll be working with the HQ crew (and with HHS) to figure out how to best response.

Given the heavy Region 1 interest in PFAS and the PFAS Summit coming up in DC next week, just thought I'd pass along the info below about how folks can participate in the Summit remotely. In R1, the only Hill office we've been able to invite is Sen. Shaheen's office (due to severe capacity constraints in the room, and Sen. Shaheen's heavy DC staff involvement in the issue. However, given the broader interest, I just wanted to make sure you had this additional info given what I expect will be high potential interest in attending (if there were slots).
