Subject: Re: EPA AR226-1030a042 reference?

HI Laurence,

Thanks for checking! I'm not sure, but I think Chris may have a CD of some of these reports, too. I also will ask him what he has so that I can limit my requests to you.

Thanks, Juliane

Hi Juliana

I can't get this report. The 3M -1030 documents were located is a different place and don't seem to have been added to the electronic files. I may have it on a CD and will have to look more.

Laurence

Subject: EPA AR226-1030a042 reference?

HI Laurence,

Can you send me the following reference or point me to where I can find it? I have not been able to find these AR226 documents anywhere online. I'm compiling PFAS-related bioconcentration data for aquatic and terrestrial species and this appears to be a useful reference.

Drottar KR, VanHoven RL, Krueger HO (2001) Perfluorooctanesulfonate, potassium salt (PFOS): A flow-through bioconcentration test with the bluegill (Lepomis macrochirus). Wildlife International, Ltd., Project No. 454A-134, EPA Docket AR226-1030a042.

Thank you, Juliane
