Subject: Re: Updated List of PFASs & comments on accompanying report

Dear Philippe dear all

That was my finding in an investigaton on behalf of the Swedish Chemicals agency a year ago and also in my work as drafter on PFOS for the Stockholm Convention, but if you say so I am happy to share my background material in this matter

Kind regards
Stefan Posner

Subject: [EXTERNAL] Re: Updated List of PFASs & comments on accompanying report

Dear Marie-Ange

Please include cyclic PFAS with generic formula CnF2n in the current overview of OECD PFASs.

3M produces cyclic PFOS as a replacement for PFOS in hydrualic fluid oils.

There are repeated CAS overlaps in the spread sheet but I assume you are aware of it.

Kind regards
Stefan Posner

To : Members of the OECD/UNEP Global PFC Group

Dear colleagues,

We wish you a very happy New Year and all the best for 2018! We are looking forward to our continued collaboration this year.

You will find attached the final updated list of PFASs. Thanks a lot to all of you who provided comments. We will be looking next to adding complementary information to the list such as information on uses, etc.

You will also find attached the accompanying report providing information on the methodology used to develop the list. Could you please provide comments on this accompanying report by January 26th?

Once we have integrated your comments on this report, both the list and report will be sent to the Joint Meeting for declassification.

Should you have any questions, do not hesitate to get back to us,

Best wishes,

Marie-Ange
