Overview

Worksheet	Description
Current ICIS Violation Codes	This worksheet shows all of the violation codes in ICIS-NPDES (table name of "REF_VIOLATION"). The Single Event Violation (SEV) codes are indentified in this table with "SEV" in the ("VIOLATION_GROUP_CODE" column in this table). These violations are identified during EPA or state inspections and manually entered into ICIS-NPDES. Columns A through D were copied directly from ICIS-NPDES. Columns E through G identify if the violations are automatically generated by ICIS-NPDES with a "Yes" or "No." Columns H through O sort these violation codes into different categories (e.g., generic code, pretreatment, biosolids). Column P provide a label for these different categories.
SEV Counts	This worksheet shows the counts of SEVs by states.
SEV Data	This worksheet shows the all of the SEV data in ICIS-NPDES (all permittees) and the corresponding NPDES program (e.g., Core NPDES program, pretreatment, biosolids). The time period is from 1 July 2014 to 25 October 2017.
SEV SQL	This worksheet provides instructions on how to download and review data from ICIS-COPY (vmgreyhound), whch is updated nightly from ICIS-NPDES (production).
RNC Codes	This table shows all of the reportable noncompliance (RNC) codes in ICIS-NPDES.
EPA Regions	This worksheet lists the EPA Region for each state, tribe, or territory.
