Subject: Re: Q: Proper POCs for a Deepwater Port Project Application

Correct...they need to contact Robert Houston. Who's the entity?

Maria,

I had mentioned that a previous Corpus Field Office JEM had a discussion for an upcoming Texas Gulf Terminal Deepwater Port project just south of Corpus. Apparently, the facility is ready to submit their MARAD permit application, and the consultant is asking about POCs to provide the application to (I've worked with the consultant before and they had my contact info).

They were planning to include me for 404 along with the Air, NPDES and others they have previously met with. My understanding is the MARAD process is similar to FERC in regard to use of a 3rd party to prepare NEPA documents. Wouldn't we typically get the initial info through the NEPA folks (i.e., Robert Houston as a POC) after MARAD reaches out to the Agency?

Just wanted to vet proper channels/POCs with you prior to responding.

Subject: TGTI DWP application

Paul,
We are compiling a list of agency contacts to send the DWP application. Is there someone such as your manager that we should send to the application also?

Thanks,
Marisa

Subject: FYI - Corpus Field Office - 6/5/18 JEM - Deepwater Port Project

Just wanted to pass along that one of the items on the JEM agenda this morning was a proposed deepwater port project south of the Corpus area. Unfortunately the webinar aspect wasn't working and they applicant did not wish to distribute the presentation as they are considering some of the information confidential at this point.

The applicant, Gulf Coast Terminals, plans to submit their MARAD application late this month. The plan is for a single point mooring (SPM) offshore with pipeline cutting across Padre Island, Laguna Madre and leading to the onshore terminal in southern Nueces/northern Kleburg counties. No estimates on wetland impacts were provided.

Apparently the applicant has meet with R6 personnel previously (Rob Lawrence, Jeff Robinson, Melanie McGee, Brent Larsen, Tina Alvarez). Hopefully not a big deal on our end, but sounds like there may be an effort to a lesser scale of what FERC uses. Apparently, MARAD will be coordinating with the federal agencies.

No action on our part as of now. Again just wanted to pass along on the radar.

(view in html)

AGENDA

9:00
Applicant: Marker 37, LLC
Agent: Hanson Professional Services
Project Name: Marker 37 Marina Development
Project Location: Laguna Madre, Corpus Christi, Nueces Co.
Description: Enhance existing facilities to include a restaurant where the marina is currently located, a small RV park area, and repairs to parking lot, docks and pier. Add new facilities including a new marina facility, creation of recreational areas, a wildlife rehabilitation facility, canals from the marina to the drystacks, and canals for a kayak trail.

10:00
Applicant: Brownsville Navigation District
Agent: HDR, Christine Magers
Project Name: Keppel AmFELS Hole Deepening
Project Location: Brownsville Ship Channel, Cameron County
Description: Deepening and reconfiguring the existing "deep hole" for the existing dry dock operations to facilitate the construction of two new LNG powered container ships and for the maintenance and outfitting of offshore drill rigs and vessels.

11:00
Agent: Lloyd Engineering, Marisa Weber
Project Name: Deepwater Port Project
Project Location: Gulf of Mexico and Laguna Madre
Material and details will be provided at the meeting and via webinar (see instructions below).

If you are participating by teleconference, please call 1-877-411-9748, access code 4593666, security code 2036.

If you are participating by webinar for the 11:00 presentation:
for audio, call 888-363-4734, access code 2906246, security code 4734.
for web meeting, https//www.webmeeting.att.com, meeting number 888-363-4734, access code 2906246.

Thank you.
