End: 4/30/2019 4:00:00 PM

Recurrence: (none)

Good Morning, Just a friendly reminder about our call today with the agenda below.

Interagency call agenda

1. Introductions (All)

2. Initial review of the application (USCG) - If reviewed, has USCG/MARAD received your comments? If not reviewed, all are invited to review and comment, but please be mindful of the DWPA timeline.
3. DWPA timeline and near term deadlines (USCG)
4. Need for alignment of public comment period with comment period required, if any, for permits (Federal cooperating agencies)
5. ESA, MMPA and EFH consultations (NMFS and USFWS)
6. State of Texas concerns for assessments included in the EIS (State agencies)
7. Any other concerns?

Thank you to all who responded one way or the other. Looking forward.

V/r
Ken

Good Afternoon all,

A couple weeks ago, members of the U.S. Coast Guard and MARAD along with their 3rd party contractor (ERM) kicked off monthly interagency teleconferences to discuss issues related to the Sea Port Oil Terminal (SPOT) Deepwater port. Internal reviews of that meeting suggested that something similar should be initiated for the Texas Crude Offshore Loading Terminal (Texas COLT) DWP which is proposed to be located in the same geographical area as the SPOT project.

This email serves to establish an initial call meeting invite for the Texas COLT project with a goal of eventually joining both project discussions under one monthly call so as to maximize the effectiveness of your time and help ensure a consistent approach of your concerns on both projects. We anticipate that 2 calls will be sufficient for initial Texas COLT discussions.

The purpose of these calls will be to discuss federal, state, and tribal coordination during the processing of the Texas COLT application to construct and operate a Deepwater port offshore Brazoria County, TX and to discuss items that should be addressed during the NEPA review. The agenda below, used to initiate interagency discussion of the SPOT DWP project, will serve as the agenda for our initial call.

Tetra Tech, our 3rd Party contractor working on the Texas COLT DWP project, will assist me in drafting future agenda items and capture minutes of our calls.

If you do not need to participate in these calls, please respond to me directly and I will remove you from the invitation. Additionally, please let me know if I have missed someone that should be invited to participate.

Calling Number: +1 202 475 4000

Passcode: 214 674 68#

Very Respectfully,

Ken Smith
General Engineer
U.S. Coast Guard Headquarters
Vessel and Facilities Operating Standards Division
