Attachments: Texas COLT_Interagency Call Meeting Minutes_Draft 06062019.docx

Start: 6/25/2019 3:00:00 PM
End: 6/25/2019 4:00:00 PM

Recurrence: (none)

Good Morning,

If you were able to call in to our meeting on May 28th, thank you for participating. Attached are the minutes of our call. Please review them and let me know if anything needs to be edited or added to help

clarify our discussion. Also, please look over the agency attendees listed and let me know if we missed someone or incorrectly identified someone.

UPDATE ON VAPOR RECOVERY: On June 4th, we were informed that a decision was made to add vapor recovery to the proposed project. Specific details of that are unclear, but we believe they are planning to add an additional platform to support the equipment necessary to deal with vapor emissions generated during loading. We will be meeting with the Texas COLT team on Wednesday June 19th and will provide you as much detail as we can once that meeting takes place so that we can discuss the changes during our next call.

The timeline remains the same; however, as mentioned previously, the timeline is subject to change based on the status of the project, especially if it is necessary to "Stop the Clock" to allow time for the applicant to gather and submit additional information that is considered necessary for us to review in order to complete the NEPA document. After reviewing the proposed changes and taking other things into consideration, if a decision is made to Stop the Clock, before our call, I will notify you.

Our next Interagency call is scheduled for Tuesday June 25 from 1100 - 1200 (EDT) / 1000 - 1100 (CDT)

An agenda for the call will be sent prior to the call. If there are specific topics or issues you would like to discuss, please let me and Brad McKitrick Bradley.K.McKitrick@uscg.mil know in advance and we will ensure they are added to the agenda. I will begin with an Introductory welcome and roll call by agency at or shortly after 1100 EDT/1000 CDT. After the roll call, I will turn the meeting over to Mr. Brad McKitrick, the Coast Guard's NEPA Specialist for the Texas COLT DWP project.

Thank you again.

Calling Number: +1 202 475 4000

Passcode: 214 674 68#

Very Respectfully,

Ken Smith
General Engineer
