h. Temperature *(summer)*	VALUE		VALUE		VALUE					VALUE		
i. pH	MINIMUM	MAX	MINIMUM	MAX.				STANDARD UNITS				

PART B - Mark 'X' in column 2-a for each pollutant you know or have reason to believe is present. Mark 'X' in column 2-b for each pollutant you believe to be absent. If you mark column 2-a for any pollutant which is limited either directly, or indirectly but expressly, in a effluent limitations guideline, you must provide the results of at least one analysis for that pollutant. For other pollutants for which you mark Column 2-a, you must provide quantitative data or an explanation of their presence in your discharge. Complete one table for each outfall. See instructions for additional details and requirements.

EPA I.D. NU' 'R *(copy from Item 1 Form 1)* ,IL00091*GD	OUTFALL NUMBER 1-S

CONTINUED FROM PAGE 3 OF FORM 2-C

PART C - If you are a primary industry and this outfall contains process wastewater, refer to Table 2-C-2 in the instructions to determine which of the GC/MS fractions you must test for. Mark "X" in column 2-a for all such GC/MS fractions that apply to your industry and for ALL toxic metals, cyanides, and total phenols. If you are not required to mark column 2-a (*secondary industries, nonprocess wastewater outfall, and nonrequired GC/MS fractions),* mark **"X"** in column 2-b for each pollutant you know or have reason too believe is present . Mark **"X"** in column 2-c for each pollutant you believe is absent. If you mark column 2a for any pollutant, you must provide the results of at least one analysis for that pollutant. If you mark column 2b for any pollutant, you must provide the results of at lest one analysis for that pollutant if you know or have reason to believe it will be discharged in concentrations of 10ppb or greater. If you mark column 2b for acrolein, acrylonitrile, 2.4 dinitrophenol, or 2-methyl-4,6 dinitrophenol, you must provide the results of at least one analysis for each of these pollutants which you know or have reason to believe that you discharge in Concentrations of 100 ppb or greater. Otherwise, for pollutants for which you mark column 2b, you must either submit at least one analysis or briefly describe the reasons the pollutant is expected to be discharged. Note that there are 7 pages to this part; please review each carefully. Complete one table (*all 7 pages)* for each outfall. See instructions for additional details and requirements.

RE: Renewal of OEPA Permit No. 0IL00091*GD
App. No. OH0059552
Expiring Jul-31-2007

American Energy Corp Century Mine
43521 Mayhugh Hill Rd
Beallsville, OH 43716

Dear Environmental Dept. Representative:

Enclosed is one copy of Form 1 and 2C applications for renewal of your National Pollutant Discharge Elimination System (NPDES) permit. If the facility discharges storm water associated with industrial activity, excluding construction and that wastestream is to be authorized by the renewal permit then you must also submit a Form 2F. If a different form is needed it may be obtained by calling (614) 644-2156 or by going to the Ohio EPA website http://www.epa.state.oh.us/dsw/permits/npdesform.html.

In the space provided for "EPA I.D. number" in the application, use the NPDES number, which for your permit, is 0IL00091 . File two paper copies of the application with Ohio EPA Southeast District Office 2195 Front Street, Logan, OH 43138 and one electronic version using SWIMware. If you have questions regarding the electronic submittal of the application, please check the SWIMware website at: http://www.epa.state.oh.us/dsw/swims/swimintro.html or call the SWIMware Hotline at (614) 644-2050. When you first save the electronic copy in SWIMware you must provide a name for the application; please use the following name: 0IL000912006. Do not file the paper or electronic versions of the application with the U.S. EPA.

Filing of this application for the NPDES permit does not relieve you of the responsibility of filing applications for other permits that may be appropriate. Regulation requires this application to be signed only by the person authorized as described in the instructions Section B, Form 1. The application must be received by the Ohio EPA no later than 180 days prior to the expiration date of your permit, unless the permit contains an earlier submittal date.

Revised Code 3745.11 requires that a non-refundable application fee of $200.00 accompany the application. The check should be made payable to the "Treasurer of the State of Ohio".

In order to address issues related to OAC 3745-1-05 (Antidegradation Rule), also complete and submit the enclosed antidegradation addendum.

Should there be any questions regarding this matter, please feel free to contact the Southeast District Office at 740-385-8501.

Sincerely,

Patti L. Smith
