Thanks Ben and Wes,

Ex. 5 Deliberative Process (DP)

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

QA UPDATE

EPA Region 6 will provide Quality Assurance Training in Oklahoma City, OK (Feb 25-27) and we're looking to hold one in Addison/Dallas, TX. Announcements of this training will be distributed. Quality Assurance staff has coordinated with tribal partners on the training. Region 6 is working with HQ on a QAPP Lean project. Benefits from this Agency Lean project include reducing the review/approval time of QAPPs submitted by States and Tribes, improved consistency within regional processes, and increased transparency to the review/approval process. A message went out asking of the training/resource needs to States and Tribes. We appreciate the responses we've gotten and hope to continue to work with our stakeholders as this Lean project continues. Sala Senkayi, 214-665-6477

Sala,
Yes, we will participate.

Wes,
Please check with Randy and decide in what capacity they need us.
Ben

Ben and Wes,
Checking to see if our Division will participate in this and if you need me to attend either in person or via phone/webinar. I know that Don attended regularly and like him, I'm fine with supporting the meeting in any way.
Thanks,
Sala

Good morning Sala,

Would the Lab Division have an update for the November RTOC report? Due date is tomorrow but if you can send by mid-week next week we can include in the report.

Thank you,

Randy

Subject: RTOC Update Reports

To the RIWG-

In today's senior staff meeting OCTEA requested RTOC update reports be sent to our office by Friday, October 18.

Attached is the RTOC report for the July meeting. If your division needs more time please let me know.

Tribal partners requested to have the complete report out to them by October 31. The fall RTOC meeting is Wednesday, November 20 in Oklahoma, most likely the Hard Rock hotel in Catoosa.

Thank you,

Randy
