Subject: RE: TCOTS Record- not sure what is going on with this action?

Good afternoon Dona and Paige,

Update on Region 6 Monarch tribal consultation: The consultation period for the Monarch CAA permit application closed. No Pueblo partners requested consultation, however, coordination efforts with the Pueblo of Pojoaque's attorney did occur (our air staff, Laura McKelvey, OAR and ITEP held a call with the Pueblo explaining the permit action) and the Pueblo submitted written comments on the permit application that our Region 6 CAA staff are reviewing. Once the final permit action happens, I plan to recommend that our Air office send letters to the Pueblos we offered consultation to updating them on the final action. I have updated the written log.

Observations and a question-Pojoaque leadership nor their environmental director were on the call, therefore, I am not considering the call tribal consultation. The fact that the Pueblo did submit written comments on the permit application does make me wonder if I should classify that call as consultation. Any thoughts?

Randy
