Thanks for passing this along, Mike.

That was my fault. I should have been more prepared.

Brian

Hey Brian,

Robert forwarded this to me and I am forwarding this on to you. Joe Russell is the Flathead County health officer. I just wanted you to know he sent this. I wouldn't worry about it as you had just been brought on to the project and it was just supposed to be an introduction. I could have done a better job of letting you know what and who we were dealing with. I think things went fine and we had now blowback from anyone else that I am aware of.

Thanks for your help,
Mike

Robert,

Next time you bring a toxicologist to a meeting make sure he is prepared to talk about some of the more prevalent chemicals found on the CFAC site. Not knowing anything about cyanide is deplorable and an affront to your mission. Cyanide is a poison and has many detrimental effects on humans. Have him read: https://www.atsdr.cdc.gov/toxprofiles/tp8.pdf.

It is amazing what a little bit a knowledge can do to support the reason why EPA is here.

Joe

Good Afternoon,

You are receiving this message as an update about the Anaconda Aluminum Co Columbia Falls Reduction Plant site, also known as the Columbia Falls Aluminum Company (CFAC) site, in Columbia Falls, Montana.

Please share this information with other interested people. If you would like to receive these emails directly, please send an email to moler.robert@epa.gov. If you do not want to receive these updates, please respond to this email with "REMOVE" in the subject line of the email.

Public Availabilities: Mike Cirian, EPA project manager for the CFAC site, and Robert Moler, EPA community involvement coordinator, are scheduled to attend two meetings in Columbia Falls next week and talk about the CFAC site.

- City of Columbia Falls Council Meeting
  - Monday, April 17, 2017 @ 7:00 pm
  - City Council Chambers, City Hall, 130 6th St West, Columbia Falls Montana 59912.
- CFAC Community Liaison Panel Meeting
  - Wednesday, April 19, 2017; @ 6 pm
  - Columbia Falls High School Cafeteria, 610 13th Street W., Columbia Falls, MT 59912.

EPA will provide a site update and discuss the initial round of data collected in the site investigation process and the draft summary report for that data. We will also talk about the draft community involvement plan and encourage feedback from the community.

Thank you for your ongoing interest in the CFAC Superfund site.
