Yes, that will be fine.

Thank you.

Hi Robert and Joe,

Thank you for sharing this information. I appreciate the advanced planning. At this point the only event on my schedule is the Smurfit Stone CAG on 2/1. See you there.

Thanks,

Patrick Davis

Subject: MT Office Superfund outreach - and RA 1/26 Butte meeting kit

Hi Patrick ,

Each month I send out to the MT office RPMs a table that reflects anticipated public facing events over the next few months. This list covers all MT Superfund sites except Libby. Based on their adds and edits, I use this information to update the R8 OCPI calendar a month or two in advance to the extend I can.

I'll start sharing these tables with you when I can so you can get a quick glance option to querying the OCPI calendar. Of course, many of these events shift around. The table below reflects anticipated actions over the month ahead. We may add to this as things emerge.

For Doug's community meeting today, attached are a few standard documents we prepare for some of our public events. Because of the announcement today, we'll plan multiple outreach and events in Butte throughout 2018.

Several other actions are likely to have public/media/congressional interface on the Anaconda Smelter, ACM (Great Falls, MT), Smurfit (Frenchtown) and other sites. As you know, we are also planning for Doug's likely visit to visit Columbia Falls MT in the spring for the CFAC site.

I hope sharing this table with you will help you understand MT office public facing actions. We always have a variety of other-tiered actions and events going on as well at any given time. A lot of good stories at many sites like E. Helena. Please contact me any time directly if you have questions, concerns, ideas, or if you want to be involved with anything we do up here.

Thanks Patrick!

MT Superfund Public Facing Events: Jan – Feb 2018			
1/26 @ 12 pm	Butte	RA Visit – Community meeting	R8A will meet with members of the Butte community to discuss the status of the SBCBA cleanup, BPSOU CD negotiations outcome, and the timeline for remedy completion.
1/29 (est)	Lockwood	Site Update	PRPs on the Lockwood Solvent's Superfund site will distribute a 2018 site update about the cleanup status to the community, elected officials, and targeted media.
