Re: **Maverick International, Ltd., Verataur And BioErase**

Dear Sirs:

I am writing in follow up of my conversation with Mr. Pittman on November 15, 2021 regarding the above-referenced matter.

As we discussed, because our law firm does not represent (and has never represented) Verataur, the following information is only second-hand although we have no reason to doubt its veracity.

We have been informed that we have been successful in prevailing upon Verataur to come up with new labels. We are told that they have re-labeled products with the enclosed label attachments.

By my reckoning, at least, this removes the label language to which the EPA had focused on.

If this is not correct, please let me know at your earliest convenience.

Thank you for your attention to this matter.

Very truly yours,

READ, MORGAN & QUINN, L.L.P.
