Steven Leonido-John seems to be the voice of the agency to the public. I can forward you some emails from him, if you haven't been getting them, about his discussions with the community leaders.

Please see message below and let's discuss (1) what EPA is saying publicly about EPA and Exide, and (2) who should respond to the inquiry below. I know David from State Bar stuff (David also knows Sylvia).

Thanks,

Letitia D. Moore

Letitia, we are involved with California DTSC about a facility called Exide Technologies in Vernon, CA which has been operating under an interim permit for 30 years. I'm not joking. Do you know whether

EPA would have reviewed DTSC's oversight of the Exide facility?

Thanks.

David
