What if we were to put in a redirect AT Akamai?

I think that would make even Akamai redirect away from the CC content on www3.

John and Mike,
We need to follow up on this issue on Monday.

I t seems we need to delete the w3 CC content that would still be served up if we go into failover.

But we have to be careful because some of it like GHG is still up.

Thank You

Susan Fagan

Regarding www3 pages:

Please note that www3.epa.gov Akamai is set up as a failover. Unlike www.epa.gov , Akamai does not routinely serve content. Akamai only comes into the picture if www3.epa.gov is down. In that case, Akamai will serve the www3.epa.gov content that we rsync over there nightly.

Redirects and .htaccess files do not go over to Akamai for www3.epa.gov. What that means is that until the actual files are deleted off the server and rsync picks up that change – if www3.epa.gov were to go down, and Akamai were to begin serving that content, Akamai will serve the content upon itself.

Another way of saying that:

If www3.epa.gov were to go down, users could put www3.epa.gov/climatechange/kids in their browser and they would get the content that we have been redirecting away from.

The solution is to delete the content from the www3.epa.gov servers so that rsync will remove it from Akamai. Removing it from Akamai will gain us nothing because the rsync will come right behind us and put it back there.

While I feel (somewhat) ok about editing an .htaccess file, I don't think it is within my tasking to delete customer code off the server without specific written direction. Please advise on how to proceed..

Thanks,

Try it out now.

To accomplish list, I edited the .htaccess file located here:

/public/data/oppeoee1/www3/climatechange

We would not ordinarily do this as this would be customer code but I have made assumption that it is ok to do that in this case.

I found some others on the www3.epa.gov site which are not redirecting to www.epa.gov and thus to the cc page. Need direction on what to do with those.

The explicit deletes for everything are processing, and beginning to be reflected in results.

The appliance won't delete full feed URLs that are excluded by a Do Not Crawl, but won't process a DELETE for it either. You have to remove the DNC, process the feeds, then restore the DNC entries.

The appliance is being pretty persistent, hanging on to the URLs in those web areas after a do not crawl and a forced recrawl. It's because this is a full feed. I will generate explicit deletes in a feed this morning and remove them.

Peter,

Is there anything extra we need to do for search?

We redirected a bunch of climate change sites to a signpost page at
https://www.epa.gov/sites/production/files/signpost/cc.html

and we redirected clean power plan and toolbox to
https://wcms.epa.gov/Energy-Independence

Thanks

Le Ann,

According to the written direction below from JP Freire and confirmed by Matt Leopard, Office Director of OIM, please redirect the following sites

To https://www.epa.gov/sites/production/files/signpost/cc.html

Climate Change: www.epa.gov/climatechange

Climate Change Science: www.epa.gov/climate-change-science

Climate Change Impacts: www.epa.gov/climate-impacts

Climate and Energy Resources for State, Local, and Tribal Governments: www.epa.gov/statelocalclimate

Students' Guide to Global Climate Change: www.epa.gov/climatechange/kids

I am creating a new JIRA ticket and will reply with the #.

I will help with testing.

I have told them it may take up to one hour to complete these steps:

1. Put in redirects related to CC
2. Re start apache webservers one at a time
3. Test some important CC related URLS

Thanks

Subject: Request for time-sensitive website assistance

<image001.gif>

Steve, Harvey and Matt,

As discussed with Nancy, we would like the content at the links below removed and archived as soon as possible.

The removed climate change pages will be replaced with a custom page that will explain why the change is happening, include a link to the January 19, 2017 snapshot of the EPA website, and a link to the press release we'll be putting out.

The clean power plan pages will be redirected to the newly posted energy independence pages.

We appreciate your assistance in this time-sensitive matter.

Please let us know if you have questions.

Thank you
