Subject: Lansing Rod and Gun Club.

Teri and Melva,

We would like to reach at NYS DEC and the US EPA about discussing with the staff and discuss the various options available. The Planning Board Chairman Tom Ellis would like to see when we could all get together and meet in person or conference call regarding this project and any and all concerns DEC / EPA may have.

The Planning Board opened the "Public Hearing" at the last meeting Here is a most recent newspaper article about the Rod and Gun Club. The Lansing Town Board also needs to issue a "Special Use Permit" after the Planning Board finishes the site plan review and should they make a recommendation to the Town Board. As you can see from this newspaper article, several area residents, neighbors, Planning Board and Town Board members have concerns about Lead and how to handle the proposed actions…

For Terri at DEC the US EPA "Best Management Practices for Lead at Outdoor Ranges".

The Planning Board public meetings are currently scheduled for **3/26/2018, 4/9/2018 and 4/30/2018** and we would also invite both DEC and EPA to send a representative to attend one or more of these meetings as well..

Mike Long
