Subject: RE: Deschutes Freshwater TMDL

Hi Jo and Laurie,

Please allow me to clarify the situation.

- The draft Deschutes freshwater TMDL is out for Ecology's **internal** policy and science review and comment.
- Following the internal review we will make the appropriate changes and schedule a meeting with both EPA and the Squaxin Island Tribe. (This can be one or two meetings, depending on the preference of your agencies.)
- Following that review, we will again make appropriate changes before the draft goes out for the Advisory Group to **preview**.
- Following that preview, we will make any final tweaks to the draft before sending it out for the official public comment.

Feel free to contact me anytime on this project. I hope this information is helpful.

Lydia

Hi Laurie,

Lydie and Andrew assurred me that both EPA and the Squaxin Tribe would receive copies of this prior to the Advisory Group and that this would all take place prior to the

public notice. I will follow up with them.

Thanks,

Jo

Good morning Jo,

Helen Bresler mentioned to me this morning that the Deschutes TMDL will be public noticed soon - - typically we take a look at the draft before it's public noticed. Could you get a copy from Ecology?

I'm pretty swamped with the Duwamish right now, and just sent an email to Jenny asking her if she would have time to look at the draft.

Thanks Jo!

lbm
