Doug –

As I mentioned at SLT today, last week ECEJ reached an agreement in principle with Basin Electric to resolve Basin's noncompliance with New Source Review requirements. Attached is the briefing paper we prepared for your briefing on this administrative enforcement case in mid-March. At that time, the two unresolved issues were penalty amount and the SO2 emission rate Basin would accept at the Laramie River Station unit going forward. Last week, R8's case team tentatively accepted Basin's $200,000 penalty offer and Basin accepted R8's proposed emission rates.

Please let me know if you have any questions or would like any additional information.

Suzanne
