Ok, thanks everyone! I'll go with 2:00 MDT today (4:00 EDT). I'll send out a skype invite but you don't have to use it. It includes a call in number that you can use if you prefer just to call in. It's easier to set up this way. Thanks.
Annamaria

ALL NPS: can you send Annamaria times that you are available either today or tomorrow. She will set up the EPA conference line and include an additional person from EPA Region 2. They are on EDT

thanks

John

Annamaria & John,

Thank you for the heads up. John mentioned today that you two discussed setting up a call with a larger NPS group. I am interested to hear additional background on this PAL permit action. I'm pretty open this afternoon, but also have time on Thursday or Friday. Thanks!

Annamaria: Great to hear from you!! Yes I do remember the refinery. I'll give you a call in just a few minutes. My cell is [redacted]. How far is LimeTree refinery from Virgin Islands NP. Any idea of emission rates. I have cc folks in my office that will also may work on the PAL analysis, Kirsten is the Branch Chief of the NPS Permitting Branch. Andrea does policy and permitting and Don is the BACT engineer. Will talk to you soon,

take care and stay well

John

Subject: [EXTERNAL] PAL permit in St. Croix

Hi John,

How are you? I'm glad to hear that you haven't retired yet! I had a question for you. You probably heard me discuss the PAL permit for the Limetree Bay refinery in St. Croix. It is the former Hovensa facility. We did not notify the NPS because we were not aware that we should. However, we now believe that we should under the PAL since there is a provision that points to Class I area AQRVs. Could you please give me a call? I can provide some background and you can let me know what type of information you would need.

You may reach me at (212) 637-4016.

Thanks.

Annamaria
