Ok great.

It is quite lengthy (at least 200 pages) and not feasible to scan the entire report. I have attached the TOC, Exec Summary and Intro sections. I can send other sections if needed…just let me know.

Hi Michele –

I do not have any record of a report entitled "Upgrade Facilities Plan" dated 2009. I do have a report entitled "Evaluation of Phosphorus Removal Alternatives, Newport WWTF" dated 2010. Please advise if this is what you are looking for.

Thanks for the update on the other permits.

Dennis

Hi Dennis-

It's been a while. I am looking for a copy of the Upgrade Facilities Plan that was submitted by Newport in 2009. Joy Hilton in our office only had a hardcopy and has sent it off-site for storage. I am trying to write a upgrade/compliance summary for the draft fact sheet. I will also need it for the administrative record. We are starting to maintain e-record files since we now send our drafts internally via Sharepoint and it allows reviewers to access information.

Just an update for my NH permits…

An attorney has been assigned to review Sunapee with the hope that we can get it issued before the end of September. My initial draft of Hillsborough has been with Dan A. for a bit and I'm just waiting on his comments before I send it on to you. Then next up is Newport which I am working on.

Thanks,
-Michele
