Subject: Pew Science Workshop Materials: Enhancing FDA's evaluation of science to ensure chemicals added to food are safe
Attachments: Science_Workshop_Handouts_Final_3-29-11.pdf; FDA_Documents_Full_Final_3-29-11.pdf; image003.png

Dear Participant,

Attached you will find the materials Pew has prepared for the workshop on Enhancing FDA's evaluation of science to ensure chemicals added to food are safe on April 5 & 6, 2011 in Washington, DC.

An additional PDF is attached which contains background information on food additives prepared by staff at the Food and Drug Administration's (FDA) Office of Food Additive Safety (OFAS). It includes Dr. Toni Mattia's PowerPoint for the webcast.

Please let me know if you have any questions.

Best,

Erin
