Interim Agricultural BMP Definitions and Effectives Values_082010_.doc

Good Evening Karl and Andy,

Thank you again for your invitation to participate in Pennsylvania WIP team meetings for the Commonwealth. I have enclosed a document describing a number of provisionally approved interim agricultural BMPs that have been submitted to the CBPO for consideration in WIP scenarios. Although they are subject to change prior to formal adoption by the partnership following the BMP Protocol process, there may be several BMPs that would have potential application in Pennsylvania's WIP.

Thank you for your time and consideration. Should you have any further questions, please contact Chris Brosch and me at your convenience. Thanks!
