All,

As part of the Certification for the HPS Rad Lab, I had asked NWT to arrange for a on-site Quality Systems Management (QSM) training session from the lab consultant. Due to a number of schedule issues that training has been arranged on very short notice, as in next week (Tue/Wed) January 12 and 13, I can have 5 - 7 seats for Tt. The agenda is attached.

It is somewhat HPS specific as we are the only site with a rad lab, but is likely of interest to several folks. HPS staff that I plan to have attend:

Rich Kanaya	Site QC Manager
Adam Berry	Site Rad QC
Thorpe Miller	Data Management
Rick Weingarz	Coordinates off-site QC samples

If someone outside of my HPS staff wants to attend please let me know and I'll see what we can accommodate.

Andy: Greg Joyce is on vacation this week, he is an obvious candidate as Program QC, but I don't know how to contact him?
