Subject: Communication materials for methanol IRIS assessment

Hi Liz –

Attached are some communication materials for the release of the revised draft methanol assessment on May 2 or 3. I've developed the fact sheet for the Administrator's office, some high level messages, and some internal Q&As.

I think you already know this, but on Friday last week, we delivered the FRN announcing the availability of the revised draft assessment to the FR office. It will publish on May 3, and it states that the revised draft methanol assessment will be available on or about May 3. The FRN was reviewed by Bob K's staff (Stacey and Sarah).

Please let me know if you have any questions or if you have comments or edits on the communication materials. FYI, Noha already has the fact sheet. In the past, we've used this in lieu of a desk statement for IRIS assessments. I hope that still works for you.

Thanks!
