Subject: Fw: Draft Guidelines for Human Exposure Assessment - Agency wide review
Attachments: Science Advisor Memo_Oct_31_2011.PDF; Exposure_Assessment_Guidelines_9232011[1]small.pdf; One Pager Guidelines for Human Exposure Assessment.docx

Please see below. Attached are the draft RAF guidelines on exposure assessment. We are being asked to provide Center-wide comments to Bob F. by COB Nov. 18. I'm assuming David's folks will be the most interested in this. Please let me know if you think someone in your division will review and provide comments.

Subject: Fw: Draft Guidelines for Human Exposure Assessment - Agency wide review

Please see below -- I am sending this to all of the Program Support Coordinators (and NCCT), but this is probably of greatest interest to NERL and NCEA. Page xix of the draft guidelines lists folks who have been involved to date. It looks like NERL, NCEA, NCER and NCCT have all had some degree of involvement.

Please provide me with you lab/center comments or other feedback by COB Friday November 18 so I can take the 21st to pull together all comments and resolve any issues.

Subject: Draft Guidelines for Human Exposure Assessment - Agency wide review needed by Monday Nov 21
Sent by: Anand Mudambi

EPA's Science Advisor is distributing the draft *Guidelines for Human Exposure* Assessment, developed under the auspices of the Risk Assessment Forum (RAF), for agency-wide review and comment. This document is an updated version of the Guidelines published in 1992. When finalized, the Guidance will provide direction to agency exposure and risk assessors on how EPA will analyze and interpret exposure information when developing its assessments. Therefore, it is essential that EPA assessors and risk managers provide a rigorous review of the document.

The RAF is seeking feedback on how well this document conforms to the practices and policies of each office and identification of issues that the programs feel should be covered but are not sufficiently addressed.

As stated in the Science Advisor's accompanying transmittal note, we are requesting that all comments from each region and AAship be compiled into a single response for each respective STPC representative and returned to Michael Broder (e-mail: broder.michael@epa.gov) by Monday, November 21, 2011.

Please note that this is an internal EPA draft and is not to be circulated outside of the agency.

The RAF appreciates the time and effort made by the STPC and their designated reviewers.

A one page informational summary is also attached.
